The Strike.

The stand-outers held a pretty full meeting yesterday, and it is reported that a resolution was carried to continue to stand out against the proposed reduction of wages. Meanwhile the mill-owners that have not resumed operations perceive no reason for doing so—excepting at the reduction. Some of the mills that have in part resumed, have had more applications for work than they had work to give the applicants.

Good Templars at Rochester.

Amaranth Lodge I. O. of G. T., was organized at Rochester, Beaver county, on Wednesday evening, April 17th, with forty-seven charter members, and the following officers: James Moorberger, W. C. T.; Tillie Gray, W. V. T.; Wm. Carter, W. S.; Mrs. P. J. Reno, W. T.; Tillie Otto, W. I. G.; Arthur Izenour, W. O. G.; John English, W. M.; Mattie Pitman, W. D. M.; Ella Anderson, W. A. S.; Ellen Richardson, R. H. S.; Amanda Leslie, L. H. S.; Harry French, W. F. S; Rev. L. Payne, Chaplain; Rufus Rosenteel, P. W. C. T. A new lodge was also started at Freedom, Beaver county, on the evening of the 17th.

It speaks well for the intelligence of the students of the Western University that they are such remarkably attentive readers of the COMMERCIAL. Yesterday we inadvertently admitted a paragraph stating that a spring vacation would be given in that institution, continuing one week from that day. We are informed that the intelligence was disseminated with most remarkable universality among the young gentlemen, and some of them had such unlimited confidence in whatever they see in our columns, that they were almost disposed to maintain the truth of the statement against the consolidated wisdom of the Faculty. The latter power carried the day, and our young friends, who have so often read and written *errare est humanum*, have been obliged to make a melancholy application of the same to their favorite journal.

THE total imports of Foreign goods at Montreal, for first quarter of 1867, were $6,424,911, against $5,999,031 same period in 1866, showing an increase of $424,881. Since the abrogation of the Reciprocity Treaty, the British Provinces have largely increased their direct trade with Foreign Countries, while their trade with the United States has undergone a marked decrease. This is not all; there is reason to believe that a wonderful impulse has been given to the business of smuggling across the border by our present prohibitive revenue system.

THE Harrisburg *Telegraph* makes a good suggestion—but one that will not be relished by a good many—when it says that the press, instead of indulging in indiscriminate animadversion on the legislature, "should name the men" who have proved themselves unworthy of confidence. That is precisely what is going to be done when "the men" show themselves.

THAT "Geological Hunt," of which we apprised the public yesterday, was under the charge of no such unheard of individual as one *Tilson*, as our types had it, but our excellent and well known friend Prof. B. C. Jillson, of the Western University.

WE learn from the Harrisburg *Telegraph* that Col. George F. McFarland, at present a clerk in the School Department, has been appointed Superintendent of Soldiers' Orphan Schools of Pennsylvania. Col. McF. is among the ablest and most experienced of the professional educators in the country, and was for several years at the head of one of our most flourishing seminaries. He rendered gallant service during the war, and lost a leg while leading a charge at the battle of Gettysburg. He has done much towards perfecting the plan for educating soldiers' orphans, and will unquestionably render that great system a success and a credit to the Commonwealth.

A SINGLE fact is referred to, to show that there exists a want of confidence in the minds of the French people, in the Emperor's wisdom or luck. Within the week a special election was held in a provincial district, to fill the place of a deceased deputy, who, in 1863, was chosen, being a Government candidate, by an enormous majority. His successor, a Government candidate, ran in last Sunday by a majority of less than 400, in a total vote of nearly 34,000. And very hopeful and noteworthy here is the fact that, of the whole number of legal electors in the district, 38,709, 34,000 exercised their right on this occasion. There is a growing activity in the vitality of the French body politic.

LEGAL TENDERS.—It is generally supposed that the law permits the Secretary of the Treasury to destroy forty-eight millions of legal tender a year. But that is a mistake; the terms of the law are very precise; it only permits him to destroy four millions in any one month, and no more. For example: the amount destroyed by the Treasurer in March was but eight hundred thousand dollars, and he cannot in April destroy seven millions, to make up the average of four millions a month. It is very essential that Mr. McCulloch should be required to keep strictly within the letter of the law; and we presume, of course, that he will do so.—*Independent.*

AT Alliance, Ohio, the freshet was quite destructive, made more so by the bursting of the Railroad reservoir, Tuesday. Quite a number of the smaller class of buildings were taken up and drifted away by the water, many of them being stranded along the P. F. W. & C. R. R. embankment. Culverts and portions of the C. & P. R. R. track were washed away. Foot bridges, bridges, fences and a vast amount of lumber and movable property were carried off by the rushing tide, the surface of the ground in many places being washed away to the depth of two feet. Many dwelling houses were partially submerged.

THE Savannah *Republican* says: "Accounts represent the condition of things in Camden and Bryan counties as truly alarming; the wildest days of St. Domingo seem to have been reproduced in Southern Georgia. In one county two negroes were sentenced to death for murder, and three others to the penitentiary. A mob of colored people surrounded the jail, broke open the doors and allowed the prisoners to escape. In another county men were found hanging to the trees within a short distance of the public roads, and had been hanging there for several days."

A Paris letter expresses what is felt there as well as here, thus: "A great many thinking folks are come already to the conclusion that this World's Fair business—which has been very profitable in its way—is getting to be overdone. It is overgrown, too unwieldy. The inconveniences attending it, here in Paris, now, are very serious. The exalted and still rising cost of living, which travelers, if they find it too exorbitant, can travel away from, stationary Parisians, with (so-called) 'fixed incomes,' are getting into an alarming fix about."

THE *Independent*, of this week, speaking of trade in general, says: "The first six months of this year, however, will be devoted mainly to liquidation and repairs. Our merchants here and in the interior will put their houses in order, and feel that they have done remarkably well if their balance sheets look as well on the first of July as they did on the first of January. They are 'coming down aisy' from war to specie prices, and may thank that good Providence which is so well directing all our commercial affairs."

NOTHING has yet been received to confirm the highly sensational dispatch, originally sent to the New York *Herald*, as to the illness of the Princess of Wales and the indifference of her husband. The latest London papers speak more encouragingly of the condition of the Princess. Both her parents are with her, and the foundation for the statement that the Prince of Wales is haunting the theaters seems to be that he has been accompanying the King of Denmark to the different places of amusement and objects of interest in the English capital.

THE Jackson *Mississippian* says: The 26th of the present month, April, being the second anniversary of the virtual surrender of the armies of the late Confederate States, we deem it but a fit and proper tribute to the memory of our gallant dead, to decorate, on that day, their graves with "floral offerings," and thus show that, though dead, their memory still lives green within the hearts of those for whom they shed their life-blood as a free libation upon their country's altar.

MR. SEMMES is for reconstruction, and replies to the common Southern argument against it: "It is folly to talk about our honor not permitting us to accept the terms offered us, because they violate our right under the Constitution. Under what Constitution? Not under the Confederate Constitution, for that is dead. Nor can it be under the Federal Constitution, *for that we have repudiated.*"

COLONEL MCCLURE, of the Chambersburg *Repository*, in his last issue says: Hon. James L. Graham, of Allegheny, was chosen Speaker of the Senate at the close of the session. He has served five years consecutively, is an experienced parliamentarian and, the compliment is well merited by his noble Republican county.

The Senate.

The Senate opened to-day by again agreeing to delay adjournment until Saturday. It is understood that a resolution favoring direct intervention in Mexican affairs was the subject of discussion for an hour or more in Executive session, and finally laid over on the ground that its discussion should properly be made in open session.

Col. Cake Confirmed.

The nominations were then taken up, and after a spirited debate, Col. James Cake, a war Democrat, was confirmed Collector of the port of Philadelphia. Senator Cameron opposed him, but the vote stood 22 to 8. No other important nominations were considered.

The Injunction Cases.

In the Supreme Court of the United States this morning, R. J. Walker filed an amended bill in the Mississippi case against the Secretary of War, General Grant and Major General Ord. Attorney General Stanbery moved to dismiss this and the Georgia bill, on the ground of a want of jurisdiction, and by consent of counsel the motion will be argued next Friday week, the 29th of April. This course, as anticipated in last night's dispatches, brings the case up at once, and will enable the Supreme Court to render a decision at this term. The result gives great satisfaction to both parties. The Attorney General entertains no doubt but that both bills will be dismissed for want of jurisdiction.

Absurd Rumor.

The *National Intelligencer* this morning quotes from the Petersburg, Virginia, *Index*, of Tuesday, an absurd rumor to the effect that Hunnicutt, a well-known Radical, has been stopped in his career by General Schofield, by arrest, and that General Schofield had also ordered that no Convention such as was contemplated by blacks and whites shall be held. But that when he thinks the proper time has arrived, he will call one. A telegram from Richmond says that this is untrue, and that a Convention composed of blacks and whites is quietly in session.

Internal Revenue Receipts.

The Internal Revenue receipts have fallen off considerably in the past week. To-day they did not reach three hundred thousand dollars.

Purchase of British Territory.

Careful inquiry has been made to-day in official circles relative to the rumored negotiations with the British Government for the purchase of that portion of British North America lying west of the one hundredth meridian of longitude, and extending to the Pacific ocean. It appears that the matter has been informally discussed in the Cabinet and by the President and Secretary Seward, but it is not true that any official letter has been addressed to Sir Frederick Bruce, the English Minister, making any proposition looking to such negotiation. Prominent administration men, however, feel certain that the question will soon be officially agitated.

European Complications.

Dispatches were received at the State Department on yesterday from General Dix at Paris, wherein he is represented as looking upon the complications between France and Prussia as of a most serious nature.

WASHINGTON, April 18, 1867.

THE INJUNCTION CASES—MOTION TO DISMISS.

In the Supreme Court to-day, Mr. Walker said:

If the Court please, for my colleague, Judge Sharkey, and myself, I now ask leave to file a bill in behalf of the State of Mississippi vs. the Secretary of War, General U. S. Grant and General Ord. We have made the bill conform to the decision of the Court. I believe it is precisely similar to the bill already filed in the case of Georgia. We now ask for permission to file it.

Chief Justice—It may be filed.

Mr. O'Conner—If your Honors please, in the case of Georgia having given notice for an injunction, we beg it may be placed on call, so that in course, on next motion day it may be heard, if the convenience of the Court will permit.

Attorney General—May it please your Honors, upon looking into the bill carefully, I have come to the conclusion it is my duty to appear in the case in my aforesaid official. It is a duty that I would not seek, but is one I cannot avoid; and upon examining the bill have made up my mind that the proper course for me to take in the first place is to move this Court to dismiss the bill of the State of Georgia, and also that of the State of Mississippi, upon the ground of want of jurisdiction in this Court. I advised the gentlemen this morning I would make such a motion, indeed have handed them notice of it, and the only matter to be arranged is the time at which the Court will hear it. In the notice of the motion, I have designated Friday week as the day on which I will be ready to take up the motion. I understand from opposite counsel that that day will suit them.

Mr. Walker—Do you make the motion in both cases?

Attorney General—In both cases it is the same motion. The case of the State of Georgia is first, however.

Mr. O'Conner—These motions are of a character that involve essentially the same questions, and can very conveniently, I suppose, be heard together in any order that the Court may direct, and any order will be agreeable to me and to my associates. The time designated by the Attorney General is the same that we designated on our part, and if the suggestion which he has made be agreeable to the Court, we may be understood, if that is of any importance, as agreeing to it.

Attorney General—I only purpose, and I think that will be quite enough at one time, to discuss the question of jurisdiction on a motion to dismiss the bill. In effect, however, it will bring up the whole case.

Chief Justice—The motion for an injunction could not be heard unless the Attorney General appeared and waived the regular notice; a motion to dismiss can be heard at any time. Each motion involves the other. The Court will comply with the suggestion made by counsel, and fix the hearing of the motion to dismiss the bill for Friday week, 26th inst. We will make that order.

Mr. O'Conner—I beg leave to say we entirely agree with the view taken that either of these motions necessarily involves identically the same matter, but I presume our motion for an injunction may go upon the calendar.

Chief Justice—Certainly.

Mr. O'Conner—We must show the Court we are regular according to practice in moving it.

Chief Justice—The motion can be made, but you are aware it is necessary to give notice. The Attorney General may waive it.

Mr. O'Conner—I have made myself conversant with that, and we will of course conform to the rules of practice and direction of the court.

Mr. Walker—I understand, if the Court please, that the Attorney General is willing to hear these two cases together. As these involve the same question we would enter the same motion for an injunction that is entered on the other cases with the consent of the Court.

Chief Justice—Certainly, motion may be entered if it is understood that the two cases are to be heard together. The Court will consider them as one case, and have two counsel on each side of the motion.

Mr. O'Conner—I confess somewhat of regret at the determination that but one counsel can be heard for the State of Georgia. It had been hoped two might be heard.

Chief Justice—The Court have considered that matter, and think but a single question is involved. The ordinary rule must be enforced.

Mr. O'Conner—It so happens, if Court pleases, these cases are entirely separate. The Court has had sufficient evidence in its proceedings and upon the record that the cases are separate and conducted by different counsel, and with different policy as to the views taken of the law. However, we submit, of course to the determination of the Court.

CONFIRMATIONS.

The Senate confirmed the following nominations: Postmasters—Wm. C. Snyder, Fulton, Illinois; Jno. S. Hull, New Philadelphia, Ohio. Major, Sixth Infantry—Thomas W. Sweeny. Collector of Customs—Joseph W. Cakes, Philadelphia. Receiver of Public Moneys—Thomas W. Morse, Menasha, Wisconsin. United States Surveyor General for Colorrdo and Utah—Wm. H. Leesing, of Pennsylvania.

REJECTIONS.

The Senate rejected the following: Collector of Internal Revenue—Charles F. Lausing, Fifth District Missouri. Assessor of Internal Revenue—Wm. M. Lewis, Second District Indiana. Surveyor of Customs—Jno. R. Findley, Philadelphia. Agent of Pawnee Indians—George W. Hawley, Missouri. Naval Officer—C. J. Riddell, Philadelphia. Postmaster—Thomas H. Yeatman, Cincinnati.

TRIAL OF SURRATT.

In the Criminal Court to-day, Judge Fisher presiding, the following proceedings were had:

R. T. Merrick moved that the court set a day for the trial of Surratt, and suggested the 5th of May. The District Attorney stated that he would not be ready then, and suggested the second day of the June term, viz, the 17th of June. Mr. Bradley urged the limited means of the prisoner, and the inconvenience the defense would be subjected to by the continuance. He asked for the assignment of a day. The court asked how four weeks from to-day would do. Mr. Merrick contended it was the duty of the Government to give a reason for a continuance. If the District Attorney could not be ready in fifteen days, he never would be. The District Attorney stated his propositions, viz: First, that his knowledge led him to suppose that it was in the power of the prosecuting officer to fix a day for trial and the court has the prerogative of discharging the prisoner on his own recognizance, if it was found the prosecuting officer had abused his privilege, and he would now move that the clerk enter upon the docket the 17th or 18th of June as the day for trial. Second, if I am wrong in this opinion, although it was the opinion of Judge Crawford that upon the statement of a sworn officer of the government that the Court cannot fix a day for the trial, upon that statement you will continue the case, because the privilege of speedy trial is to be understood in a qualified sense. Third, I have not been remiss in the preparation of the case, and am not confined to witnesses on the indictment, and am bound to have every witness knowing aught of this case to testify in open court. The Judge said he did not think he could set a day in the June term, as he should not preside in that term. If he should grant the motion, it would be for a continuance. He should take the subject into consideration.

THE JAPANESE.

The President to-day received by special appointment the Japanese now in this city, twenty in number, in company with Professor Pisley and Edward Bonds, the latter formerly of the United States Legation at Jeddo. A large number of visitors, including ladies, were present. The Japanese were in full dress. The principal one made a speech, acknowledging their high sense of the honors conferred upon them by thus being admitted to the presence of the chief of this great nation—an event long to be remembered and greatly appreciated. The President expressed the pleasure he experienced in extending to them a cordial welcome, and trusted their visit would in all respects be profitable, and that they might ultimately in safety return to their homes.

INTERVENTION IN MEXICO.

Senator Johnson's resolution providing that the United States should offer their mediation to the belligerents in Mexico with a view to restore peace honorable to both sides, was taken up in executive session. As far as can be learned, Johnson supported the resolution with a prepared speech, and Senator Sumner spoke at some length in its favor. Senator Fowler then offered a substitute, setting forth that since the United States had not thought it proper to interfere in the war in Mexico while the French were there, and when its interference would have been of some advantage, and since the Mexicans have shown courage and determination to defend the independence of their country, and had succeeded in expelling the foreign invaders, it was the sense of the Senate that this was no time to interfere in Mexican affairs, and that the people of the United States had full confidence in the manner in which the Mexican people should treat their prisoners of war. Senator Chandler spoke against the resolution, and was followed by Senator Morton, who took the ground that Maximilian being nothing else than a filibuster in Mexico, the United States could not interfere in his behalf, just as they would not interfere to save Walker or Lopez; that, besides, Maximilian soon after his arrival in Mexico issued a murderous and barbarous decree ordering all Mexicans who would not support him to be shot within twenty-four hours after capture; among them Major Generals and other officers of high rank and acknowledged worth were shot for the pretended crime of defending their country and their firesides, that the United States did not then interfere to prevent this wholesale murder and assassination, in which women and children were included, and that therefore it would not be becoming for them to interfere now, when the filibusterer and murderer is reduced to extremities; that it would, besides, be undignified for the Government to interfere in favor of a party which, in all probability, has by this time been subdued, certainly long before the mediation could reach Mexico; that the United States, having altogether ignored Maximilian and the Empire from the beginning, could not now, if it had any regard for consistency, acknowledge Maximilian's rule as a Government, and interfere in his favor with his enemies. The speech of Senator Morton embraced many other points, and it is said produced such an effect as to induce Senator Johnson to withdraw his resolution as defeat seemed certain, if pressed to a direct vote. In the course of the debate it was stated by one of the friends of the resolution that Maximilian was not responsible for the bloody decree by which the black flag was raised in Mexico, and supported his assertion by reading a letter from an European Minister, that the decree in question was signed by Maximilian under compulsion of the French. It is said this explanation did not seem quite satisfactory, as the French have disclaimed all responsibility. The result of the debate was decidedly against any interference on behalf of Maximilian and his followers, and an expression of confidence in the Mexican people to deal with prisoners of war according to the laws of nations.

HIGHLY INTERESTING.

NEW YORK, April 18, 1867.

SHIPMENT OF SPECIE.

The steamer Hermann, for Europe, to-day took $470,000 in specie.

DAMAGED BY FIRE.

The contents of the pickling establishment of S. S. Provost, on Front street, were destroyed by fire this morning; fully insured.

CHANGE IN DISTRIBUTION OF MAILS.

A dispatch from Washington states that a change is to be made in the method of distributing mails. The change will commence with the New York and Erie road, on next Monday. Two daily distributing cars will leave New York on this road, one at 8 A. M., the other at 5:30 P. M., and in addition to carrying through mail these trains will also distribute at all way stations.

ARRIVAL FROM NICARAGUA.

Among the passengers by the steamer Santiago De Cuba, from Greytown, Nicaragua, which arrived to-day, is Hon. Thos. H. Clay, United States Minister to Honduras. The Santiago brought California passengers.

SPENCER RIFLES IN MEXICO.

Advices from Mexico state that many of the men of the Liberal army are now armed with Spencer rifles taken out from New York some months ago.

ENLISTMENTS STOPPED.

The Imperial enlistments in Havana have been stopped, and it does not appear that Maximilian gets aid of any kind from foreign countries.

STATISTICS OF EMIGRATION.

The regular statement of the Commissioners of Emigration up to-day shows there had arrived 33,863 emigrants at this port since January 1st, against 43,863 during the same period in 1866.

SAILED FOR EUROPE.

Among the passengers for Europe, per steamer Hermann, to-day, were John Hitz, Swiss Consul General; J. Lehman, of Columbus; Mr. and Mrs. Lewis Walne and children, Miss Mary Cox, George Wust, G. H. Garlicks, M. J. Ness, S. Mayer, wife and three children, all of Cincinnati; Edmond A. Pruss and family, of Louisville; Mrs. S. Hirschle and daughters, of Davenport, Iowa; M. Rosenheim, of Wisconsin; H. Vanderboke, wife and four children, of St. Louis; L. Breisaczr, W. Baril, and F. Heisse, of Detroit; F. Brunner, wife and two children, of Illinois; E. Strasburg, of East Saginaw, and A. Holterman, of Ohio.

COLLISION AT SEA.

The steamship Sciota reports that on the 11th, in latitude 43 degs. 11 mins., longitude 29 degs. 13 mins., at 1:50 A. M., came in collision with the ship Berkshire, of Boston, Capt. Berry, from New Orleans for Havre, and took the Captain, his wife and sixteen men off and brought them to this port. The ship Berkshire was left in a sinking condition.

THE MOZART INTEREST.

The executive committee of Mozart Hall have resolved, in view of the exclusion of their organization from the State Convention and want of interest felt by the Democracy of this city in the election of delegates to the Constitutional Convention, to abstain from participation therein, but reserve its action at the polls until the November and December elections, when it will act independently of all political interests.

COUNTERFEIT GREENBACKS.

Counterfeit one dollar greenbacks are in circulation.

FROM COLUMBIA, S. C.

Destitution Among the People--Registration of Voters--Immigration of Farmers--The "South Carolinian" Not to Be a Negro Organ.

COLUMBIA, S. C., April 18.—The Governor estimates that one hundred thousand people in South Carolina have not tasted meat in thirty days. The destitution is great, and several cases of starvation are reported.

The registration of voters will be commenced as soon as a sufficient number report themselves who are qualified to act as registers. Few have done so as yet.

Northern advices received here indicate considerable immigration of farmers from New England, New York and Pennsylvania.

The statement that the *South Carolinian* had been sold to Beverly Nash as a negro organ is false. It is still edited and owned by F. G. Defontaine.

FROM ALBANY.

The Eight-Hour Bill Passed by Both Houses.

ALBANY, April 18.—The eight hour labor bill has passed both Houses. There is a strong pressure of manufacturers and capitalists on the Governor to induce its veto, but he pledged himself in its favor in the last political canvass, and will undoubtedly sign it.

A new proposition to increase the passenger fare on the Central railroad will probably be adopted by both Houses, and passed over the veto.

Another Flood West.

KANSAS CITY, MO., April 18.—The river is higher at this point than it has been since 1844, and is still rising. The tracks of the Missouri and the Union Pacific Railroad between the State line and Wyandotte end overflowed to a depth sufficient to extinguish the fires in the locomotives. Part of the botton on the north side of the river is submerged, and it is feared the eastern bottom will be submerged. The water comes mainly from the Platte river, which is now reported receding slowly.

Six Men Drowned.

PLYMOUTH, MASS., April 18.—Four men, crew of a life boat, were drowned yesterday in saving the crew of a wrecked schooner. Their names were Cromwell T. Holmes, Jos. Lynch, Jos. B. Lynch and Amasa Bartlett, Jr. Two other men, one unknown, the other named Geo. Kane, who tried to save a man washed overboard from another schooner, were also drowned.

Gov. Brown, of Georgia, Advises Submission to the Military Law.

SAVANNAH, April 18.—A mass meeting of citizens held this evening was addressed by Ex-Governor Brown, who spoke an hour and a half, advising submission to the military bill as the best alternative left the people of the South.

THE GALLOWS.

Execution of Albert Teufel--Attempt at Self-Poisoning.

Albert Teufel was executed at Boylestown, on Thursday, the 18th. Though denying he was guilty of the murder of Captain Wiley, for which offense he was hung, he confessed other crimes. He was visited by his father and other relatives and friends, the night before the execution. In the morning he was in convulsions from poison, it is supposed. He was attended by several physicians, and though very weak, and more dead than alive, he was hung at twelve o'clock, having swallowed a heavy dose of brandy.

Southern Relief Fund.

Special correspondence of Pittsburgh Commercial.

BEAVER, PA., April 19, 1867.

The citizens of this borough have raised $107 50 to aid the destitute of the South. The amount will be forwarded without undue delay.

LATE NEWS ITEMS.

A great freshet is reported in Iowa, owing to the thawing of heavy snow. Three bridges have been carried away on the Chicago and Northwestern Railroad—one across the Raccoon, at New Jefferson, and two others between that and Des Moines. At Des Moines, a large number of houses are submerged, and but for the interference of a levee made last year the entire city on the east side of the Des Moines river would be under water. Reports from all the regions of Wisconsin, represent a much larger amount of logs got out than any previous winter. A Des Moines dispatch says that three trains of iron a day pass over the Northwestern Railroad for the Pacific Railroad. The track of the Union Pacific Railroad, Eastern Division, is laid to the Salina river, and construction trains are running as far as that point.

Several seizures have been made at St. Louis under the charge of defrauding the revenue law in selling whisky. At several principal points similar seizures have been made lately.

An expedition is being organized by the State Department to explore Russian America, and acquaint our people with the value of their acquisition. It will start about the first week in May.

A remand of one of the Judges of the Supreme Court establishes the fact that had the Attorney General interposed any objection to the filing of the Georgia injunction case, the Court would have sustained that objection as it did in the Mississippi case.

The *Tribune's* special says: Attorney General Stanbery is said to have recently remarked to the District Attorney of Virginia, that Jeff. Davis must be disposed of during the coming term of the Circuit Court of the United States, which meets at Richmond on the first Monday in May.

The Senate has rejected the sale of Kansas lands to the Southwest Pacific Railroad for one million dollars on credit. This was the land which Secretary Harlan sold to the Connecticut Emigration Company, and which sale was set aside by his successor, who then sold it as above.

The Governor of Arkansas says that State is ready to organize under the reconstruction act.

Further investigation concerning the coin and bullion captured on the downfall of the confederacy, shows conclusively that it belonged to the rebel government, notwithstanding it was claimed by the Richmond and New Orleans banks.

The trial of Major General Wool, at the suit A. D. Evans and Thomas Rich, for damages for arrest and imprisonment in Fort Delaware during the war, was commenced in the United States District Court in Baltimore, Thursday. Judge Gills overruled the prayer of the counsel for General Wool, to be exempt from trial under the military law and martial law. He said it was but just for the accused to show before the proper tribunal good and sufficient reasons why he caused the arrest and imprisonment of private citizens. It goes to jury, and will consume some days.

FOREIGN ITEMS.

The London *Owl* thinks it not unlikely that England may be drawn into the impending contest between France and Prussia. According to the *Owl*, Lord Stanley has been appealed to by the Prussian Cabinet, to induce the Dutch Government to withdraw from negotiations with France for the cession of the Duchy, and it is believed that on this occasion the Foreign Secretary may depart from his policy of non-intervention in Continental affairs.

From recent declarations of the French journals, it appears the imperial Cabinet has not abandoned its designs on Luxemburg, and Prussia seems determined not to permit the Duchy to be separated from Germany.

The *Owl* intimates that Lord Lyons will succeed Earl Cowley as Minister to Paris.

In a debate in the North German Parliament, on the 3d, General Moltke resisted a motion to reduce the term of service of soldiers in the regiments, on the ground that in the present state of Europe it was not expedient to impair the efficiency of the army by such reduction.

The *Herald's* special correspondence from Dublin and Thurles, indicates very plainly that another and more extensive Fenian rising is expected in Ireland, and that the British Commander-in-Chief is forced to keep fully prepared for active exertion at any moment.

An action which took place between three armed Fenians, McClure and two others, and the men of a British flying column, in a wood near Mitchelstown, was a most exciting affair. The determined bravery of the Fenians, as well as the rapidity of their fire, elicited the admiration of the soldiers. The three Fenians fought 120 soldiers until one of their number was killed and the remaining two captured.

The *Herald's* Queenstown, Ireland, correspondent says: There is an almost general exodus to the United States. The class of people emigrating is generally of the comfortable farming classes.

Wade Hampton and "Nash."

For the information of those who are expressing delight at the cordiality existing between Wade Hampton and a certain colored man named Nash, at the capital of South Carolina, please state a fact bearing on Nash's character. About a year ago an affidavit, over Nash's signature, and taken by Brevet Brigadier Ralph Ely, was extensively published throughout the country. In it Nash stated that Columbia was partially destroyed before General Sherman entered that city; that cotton was burning in the streets and the railroad depots had been blown up by the rebels.

Shortly after the publication of the affidavit, which thus showed that General Sherman did not begin the destruction of Columbia, a magistrate in that city published a counter affidavit, in which Nash states that he did not make the first affidavit. General Ely can show a copy of it, however, as it was taken in duplicate. He also denied the facts, which all candid persons could testify to, relative to the destruction of that city. It is hardly necessary to state that Nash was dropped by his old friends, although his ignorance may be an excuse for his duplicity.—*Correspondence of the Missouri Democrat.*

DURING a recent survey of Mount Diablo, California, the chief of the party discovered some very rare specimens of fossil sun fish, sea urchins, star fish, and other beautiful petrifications. He says that these fossils are in great abundance, and can be procured from the highest point of range dividing Bear creek from the Leganite, about five miles from the San Jose crossing. The fossils are apparently crystalized or imbedded in a lime cement, and are arranged in elegant patterns of rare beauty, like the meridian lines of an artificial globe. The whole mountain, for miles in extent, is one mass of conglomerate formed in fossils of marine animals and plants, showing that at some period the ocean had its banks or beds along and over this ridge 3,000 feet above its level.

The Great Eastern is not likely to prove a good speculation this time. Her tonnage duty on entering the port of New York, amounted to six thousand forty-five dollars and sixty cents, which, with the addition of the harbor master, health officer and pilots' fees, and charges on stamps, permits, &c., being altogether only the expense of entering the port, will foot up seven thousand dollars. She departed for France, carrying 191 passengers paying one hundred dollars each, which amounts to nineteen thousand dollars, leaving a surplus of twelve thousand dollars, out of which the expenses of her voyage, the salaries of her officers, crew and attendants, costs of painting and repairing, and other incidental items, are to be liquidated.

THE Huntingdon *Globe* utters the universal language of the press when, speaking of the adjournment of the Legislature, it says:

> "Many of the *distinguished* legislators have gone home, it is hoped never to return again. They will discover that the people are not blind to corruption, no matter what the efforts may have been to pull the wool over their eyes."

A WASHINGTON dispatch dated the 16th says: Enormous quantities of shad and herring are being caught in the Potomac. Over a hundred thousand herring sold yesterday for about six dollars per thousand, and twenty thousand shad for about ten dollars per thousand.

WASHINGTON.

THE LOUISIANA MARSHALSHIP.

The Austrian Mission Still in Abeyance.

Fort Buford Massacre Unconfirmed.

Japanese Troupe Visit the President.

Special Dispatch to the Pittsburgh Commercial.

WASHINGTON, April 18, 1867.

Appointments.

General Wm. Myers, of St. Louis, but now on duty at Omaha, was sent to-day to the Senate as Assistant Quartermaster in the regular army, with the rank of Major in the line of promotion.

The Louisiana Marshalship.

There has been lively times to-day in the Senate Judiciary Committee over the nomination of General Frank Herron to the lucrative Louisiana marshalship. The Committee are in doubt in the matter, as serious changes have been preferred by Herron's opponents.

Anxious Office Seekers.

The eager crowds, the anxious expectants, the restless impatience, were as clearly visible this afternoon as upon any previous day, pushing towards the President's office, and all seeking admission thereto. Very many were given audience up to a late hour.

The Austrian Mission.

The Senate has rejected the resolution of the Committee on Foreign Relations, declaring the Austrian Mission not vacant, and then this afternoon took up and discussed without final action the nomination of Raymond. Both of the New York Senators supported his nomination.

The Fort Buford Story.

Unofficial information to-day reached General Grant's headquarters to the effect that Fort Buford had not been disturbed on the 17th of January. As the reported massacre is dated the 15th, there is some hope felt that it is after all untrue.

Japanese Visit the President.

A company of fine look Japanese had an audience with the President to-day. The principal one, Namaikari Sada Kiski, after being introduced, asked if the President would allow him to make a few remarks. The President gave his consent. Hamaikari Sada Kiski said that he thanked the President for the honor and privilege that he had conferred, upon them in granting this interview, for which they were very thankful, and that to be received by the Chief Executive was an honor and a privilege they did not enjoy in their own country. The President replied briefly to this speech, expressing his gratification at the visit made to him, trusting the sojourn of the troupe in the United States would be pleasant, agreeable and profitable. He then accompanied the party through the Executive Mansion to the state dining room, the blue, red and green rooms, concluding the round in the celebrated east room. The Japanese expressed themselves as highly delighted at the elegance of the different apartments. The President on parting with them saluted each of the Japanese separately.

FROM RICHMOND.

Republican State Convention--Platform Adopted.

RICHMOND, April 18.—The session of the Republican State Convention to-day was very animated. Resolutions were read expressing gratitude to Congress; declaring the new party of Virginia part of the Republican organization; adopting besides general principles, propositions declaring for equal political rights, office holding included, for a thorough system of common schools, for a more equitable mode of taxation, for modification of the usury laws so as to encourage capitalists, for internal improvements and emigration; declares the Government ought not to exist founded on any other basis than human equality, and that no man shall receive the suffrage of the new party who does not meet these issues.

A lengthy address was read by Judge Underwood and adopted. A warm discussion occurred on an allusion in one resolution to the military act as the Sherman-Shellabarger bill. Thad. Stevens was substituted for Sherman, it being declared by speakers that the latter was not its author. The enthusiasm over Stevens was immense.

A resolution in honor of Abraham Lincoln was adopted. The feature of the day was the discussion on confiscation resolutions offered, sustaining the confiscation acts of 1862, and demanding the impeachment of Johnson for not executing them. Nearly all the colored speakers declared it the duty of Congress to confiscate rebel lands so that homesteads might be obtained.

Resolutions were referred to the Committee, and the Convention adjourned, after the appointment of a State Committee, to Capitol Square, for a ratification meeting.

At the State Convention of the Union League, Dr. Brown, of Richmond, was made President; Thomas Borgist, of Winchester, Vice President, and Andrew Washburn, of Richmond, Secretary.

UNITED STATES SENATE.

Saturday Fixed as the Day for Adjournment.

WASHINGTON, April 18, 1867.

After prayer and the reading of the journal, the Senate went into Executive session. After some time the doors were opened.

Mr. ANTHONY called up the resolution for further extending the *sine die* adjournment until Friday at 4 P. M.

Mr. TRUMBULL opposed the extension, and wanted to adjourn to-day.

Mr. FESSENDEN said it was impossible to adjourn to-day, as there was important business on the table which would occupy them till 4 P. M.

It was agreed to extend the time till Saturday by a vote of 20 to 10, and the Senate again went into Executive session.

From Montreal.

MONTREAL, April 18.—The French journals are indignant at the Ministers of the Canadian Government remaining absent in the royal palaces in England when their presence is required in Canada to look after the interests of their constituents. It is said the Liberal party have a large majority in the new local Legislature.

The new government under the Confederation is almost certain to be a coalition administration. Messrs. Dougall, Blair and Howland will be offered seats if they are disposed to continue in office. The Government has determined to send twelve of the best marksmen among the Canadian volunteers to the next meeting at Wimbledon, England.

A large number of farmers have left St. Hyacinthe and Chambly for the United States.

The ice in the St. Lawrence is fast disappearing. It is supposed the river will be open to-morrow.

Meeting of Freedmen in Mobile.

MOBILE, April 18.—There was a large meeting of freedmen last evening at which there were 30,000 present. Radical speeches were made by both blacks and whites. Resolutions were adopted affiliating with the radical party, and demanding the right for the blacks to sit on juries, hold office and ride on street cars. The meeting adjourned at a late hour. Most of the colored persons present were armed, and a great number of shots were fired into the air after adjournment.

From Charleston.

CHARLESTON, April 8.—The public examination of Saxton Colored School, under charge of the Freedmen's Bureau, was held to-day. General Sickles, Judge Magrath and others were present, as was also a large audience, mostly colored.

The trial of the parties indicted for burning the Kingstill Jail, with twenty prisoners, resulted in the acquittal of the accused.

Conservative Meeting at Petersburg, Va.

PETERSBURG, April 18.—A conservative meeting was held to-night, and passed resolutions affirming equal rights for whites and blacks, and accepting the terms of Congress. The meeting was very large and enthusiastic, and consisted of about half negroes. Jno. Lacon was the only speaker.

Lake Erie Navigable.

PORT COLBORNE, April 18.—The propeller Empire, of the Northern Transportation Company, from Cleveland for Ogdensburg, arrived this afternoon, and reports but little ice in the lake and on the south shore. Water will be let in the Cleveland canal on the 22d, and it will be opened for business on the 23d.

From New Orleans

NEW ORLEANS, April 18.—A fellow, calling himself Darling, has been swindling the members of the New Orleans and Memphis press, representing himself to be correspondent of the Cleveland *Plaindealer* and Cincinnati *Commercial.*

From Belleville, C. W.

BELLEVILLE, CANADA, April 18.—Navigation in Bay Quinte is open. A daily line of steamers will be established between here and Oswego.

Bishop Spaulding Beyond Recovery.

BALTIMORE, April 18.—Archbishop Spaulding is reported to-night beyond recovery.

Official Vote of Connecticut.

HARTFORD, CONN., April 18.—The official canvass shows that 94,153 votes were cast at the late election, 30,000 more than ever before. English's majority is 987. The net Democratic majority on Congressmen was 1,394.

Fire in Brighton.

ROCHESTER, April 18.—The Demas Hotel and stable and the Presbyterian church at Brighton, near here, were burned this morning. Loss $15,000, partially insured.

IN 1841, a company engaged in building a railroad between Paris and Rouen employed in its construction a number of English engineers, who imported workmen from England in addition to the French laborers. As these two classes of laborers worked together, it was found that the French could accomplish only about two-thirds of the work of the English. Recognizing the great differences in the alimentation of the English and the French, the boiled and roasted beef used by the English were finally substituted for the vegetables and weak soups with which the French were almost exclusively nourished, and from the moment that an equality in diet was thus established, the French began to accomplish as much labor as the English. The same thing was illustrated in 1825 in an iron foundry which was established near Paris on the English plan. Here it was found necessary to employ English workmen for certain operations requiring great strength and endurance, which could not be performed by the French; but on feeding the native workmen with meat it was soon found that they became strong enough to do what was required, and the imported workmen were sent back.

THE NEEDLE GUN.—The needle gun, which received so many praises for its deeds last summer, is not yet past improvement. Think of a Springfield musket in comparison with a weapon of which somebody who has tried it, says:

"I fired a needle gun. It was awkward as the first pair of skates, and so heavy that I thought it an imposition to be obliged to hold the whole of it myself. It seemed enough avoirdupois for an entire platoon to carry. There is a knob upon it as big and as hard to turn as your door knob, when you go home from your lodge at Christmas midnight. You must hit this knob with the palm of your hand, drive it down, draw it back, put in your cartridge, and it sends the ball about half the distance of a Springfield rifle ball. You bruise your hand, swear, and after a dozen rounds have been fired the breech of your gun feels like a red-hot poker. A regiment of men at work with this weapon look as if they were cracking walnuts, or opening oysters, or killing mosquitoes. You can certainly fire it six times a minute after six years' practice."

THE latest incident connected with the Paris exhibition is a little amusing, in view of the continental embarrassments. There is placed before the facade of the great gasometer which the French persist in calling the palace, a statue of His Majesty King William, of Prussia. On the morning of the 29th ult. the workmen who were in the Champs de Mars, and the visitors who arrived, were astonished to see that during the night a luxurious crown of laurels had sprouted on the head of the conqueror of Sadowa. The Commissioners, on being advised of this phenomenon, did not seem overjoyed. By their orders some workmen climbed up the monarch and stripped him of his ornament. The scene provoked a good many quiet smiles.

THE Mormon missionaries abroad are pursuing their work energetically. A London paper says "Our readers will probably be surprised to hear that Mormonism flourishes in the neighborhood of Kensington, and that the 'saints' who meet once a week in Kensington Hall are increasing in numbers and influence. On Tuesday last they gave a concert and conversazione in aid of the fund which provides means for those who are inclined to proceed to the colony of Salt Lake, and the assembly was very 'numerous and enthusiastic.'"

BOSTONIANS IN EUROPE.—A private letter received by the last steamer, from a friend who is traveling in Italy, incidentally mentions the remarkable fact, that at his breakfast that morning, in a hotel in Sorrento, in the South of Naples, he met no less than *ten* Bostonians! They were the representatives of five families, all living in his own immediate neighborhood, within a few rods of Beacon Hill! The next day, he says, all the guests in the hotel were Americans!

CROPS IN MARYLAND.—The peach trees are in bloom and give promise of a large crop; the leaves are putting forth from the trees; peas are three inches high; shad are abundant in our river; everything luscious is near at hand, and things lovely to the eye will soon be seen everywhere. Wheat looks well.—*Worcester Shield.*

IT is understood that Col. McCreary will not assume the duties of Adjutant General until the expiration of his legislative term, next October, in consequence of a Constitutional provision prohibiting members of the Legislature from accepting or holding any other office until the term for which they are elected has expired.

HOW to get down one of the front walls of the lately burned Lindell hotel at St. Louis and save the $120,000 worth of marble it contains, is a problem which the contractors of the new hotel are anxious to solve. Nobody will risk his life on it, and to pull it down will destroy the marble.

A YOUNG GENTLEMAN, who passed an A No. 1 examination at a celebrated law school in New England, a year ago, turns out to be a beautiful and fast young lady of good family, who was in 1863 a second lieutenant in the army.

SILVER plate, valued at $350, $100 and $50, is to be given by the Longworth Wine House, Cincinnati, next fall: 1st, For the best wine grape; 2d, For the best variety of wine, and 3d, for the best table grape.

A nonsensical rumor is repeated by the *Herald* that negotiations are pending for the purchase of British America by the United States. Mr. Seward proposing to give the Alabama claims in part payment.

THE first chapter of Henry Ward Beecher's new story, written for the New York *Ledger*, it is said, may be expected in a few weeks.

FROM FRANKLIN, PA.

The Oil and Lumber Trade--Local Interests--Railway Movements.

Special Correspondence of Pittsburgh Commercial.

FRANKLIN, April 17, 1867.

While the oil trade is depressed, the operators discouraged, and even valuable oil lands, engines and tanks sacrificed, under the Sheriff's hammer, there is some evidence of returning business in the oil regions. During the past winter more of the old fashioned enterprise has prevailed among the people. More lumber is afloat for the western market than has been taken out for six years, and there is no abatement in the search for good lumber lands, where the surplus labor may find employment, and the proprietors obtain large remuneration for their investments.

With the free railroad law to protect them from the grasp of a powerful monopoly, the people will construct branch roads into the lumber forests and bring them speedily into connection with the cities and towns, where the lumber is in such great demand, and will secure such high prices as at the present prevail. The citizens of Buffalo and Rochester are subscribing liberally to such a road to be built up the valley of the Tionesta, for the purpose of reaching the coalfields of McKean county, which will at the same time reveal immense forests of valuable timber along the line in Forest county.

A strong inclination is also becoming manifest among the capitalists to engage in the manufacturing enterprises. With as fine water privileges as are to be found in any part of the world, the people have been content to depend upon other places for their barrels, buckets and brooms, coal, cloth and cereals; but they now show a determination to do some of this work for themselves. A new woolen factory is being erected a few miles below this place, and a large barrel factory in the town.

There is also an unusual demand for farms, so that hundreds of farms which were neglected for the purpose of boring for oil will now be brought into use and contribute much to the healthy prosperity of the country.

There is no better country anywhere for sheep than this, and the additional tariff on foreign wools by Congress will greatly encourage our farmers to turn their attention to that branch of industry. The price of wool hereafter will not only be better but more uniform and unchangeable, and will at least prevent speculators from going to Australia for shiploads of wool for the supply of our factories.

As soap is a sign of civilization, we are glad to say that we have a soap and candle factory started in our town. The candles are required to aid them while boring for oil, and the soap to cleanse their dirty faces when they find it.

FOR SALE—FARM—Four Hundred Acres of Coal and Farming Land, near the Rush Run Coal Shaft, Jefferson county, Ohio, fronting on the Ohio river and Cleveland and Pittsburgh Railroad. A seven foot vein of desulphurated Coal underlies said land. For agricultural purposes it is unexcelled. For particulars, inquire of WM. LITTLE, No. 145 Wood street, Pittsburgh, or C. J. SCOTT, Wellsburg, West Virginia.

FOR SALE—COUNTRY SITES—Sites for country residences in Allegheny county, Pa., and Missouri Lands for sale. A number of beautifully located building lots of one, two, three, four and five acres each, at Brodhead Station, on the Pittsburgh and Steubenville R. R., in the Valley of Chartiers, about three miles from Pittsburgh, and immediately adjacent to the Pittsburgh and Steubenville turnpike. Also, two acres, chiefly wood land, in Chartiers township, ten minutes' walk from Ingram Station, on Pittsburgh and Steubenville Railroad. Also 572 acres of Timber Land in St. Louis county, Missouri, eighteen miles from St. Louis, and one-half mile from the Maramec Station of the Union Pacific Railroad, situate on the Maramec river, which empties into the Mississippi river about eighteen miles below St. Louis. This tract is covered with timber of the best description, chiefly white oak. If preferred, will be sold in separate pieces of 94 acres each. For terms and particulars apply to S. F. VON BONNHORST, at People's Savings Bank, No. 77 Fourth street.

FOR SALE—PLEASANT HILL FEMALE SEMINARY—An order having been granted by the Orphans' Court, the undersigned Administrators of the estate of the late Professor T. C. McKeever, will offer at Public Sale on Wednesday, May 1st, 1867, the above mentioned Institution, and about 50 Acres of Land surrounding the same. The buildings are frame and brick, and of sufficient size to accommodate 100 Boarders. There is also a Brick Dwelling, an Ice House, Wash House, two Frame Stables and other necessary out-buildings, all in good repair. On the land are two excellent Orchards and a sufficient supply of Coal for the use of the Institution. The Seminary is at the present time and has been in very successful operation for a period of more than twenty-two years. So that the purchaser not only buys the land and buildings, but the product of a life's labor—an established School. The balance of the Farm, consisting of about 190 Acres of very superior Land, will also be offered for sale. Sale to commence on the premises, one mile from West Middletown, Washington county, Penna., at 12 M., on said day.

The Daily Commercial

FRIDAY, APRIL 19, 1867.

☞ THE DAILY COMMERCIAL *is circulated in all parts of the State, in Western Virginia, Ohio and adjacent States, and without comparison, is the best advertising medium in Pittsburgh.*

☞ THE COMMERCIAL *gives the only complete reports of the local markets published, and is accepted as authority by dealers at home and in all the principal cities.*

☞ THE COMMERCIAL *is sold everywhere in the cars; and by News Dealers at all the principal points. Price five cents a copy.*

☞ THE COMMERCIAL *solicits local correspondence, giving events of interest, concisely written; also, of improvements, inventions and personal movements.*

☞ THE COMMERCIAL *is the only paper in Pittsburgh that uses the telegraph freely. Its special dispatches are from correspondents selected for their intelligence and reliability.*

THE suspicion begins to lurk in the public mind that, after all, Count BISMARK sent to NAPOLEON no such message as has been reported, about the war preparations of the latter. Whether it was a ruse of the speculators or not, it is a fact that speculators profited by it—one of them in Wall street to the tune of half a million in a few hours.

WHAT will be the end of this boasting about size and population, between St. Louis and Chicago, we are not able to say. We are not responsible for the consequences. But at a respectable distance we entertain the notion that Chicago talks bigger than she is. The late election in that city polled a little less than 20,000 votes. The Republican wards were so sure of success that they did not turn out strong; but the Republican journals claim only about one thousand more voters than turned out at the polls. So that 21,000 would probably embrace all the voters of the city. We will, however, allow it 2,000 more. Now the usual ratio of voters to the whole population is one to six and a half, which would give to Chicago a population of 149,500. But as we have been liberal in allowing 2,000 more voters than anybody claims for the city, so we will enlarge the ratio to seven instead of six and a half, and that will give Chicago a population of 161,000, being 50,000 less than it boasts of having, and less by considerable than our modest city of Pittsburgh, when consolidated, will contain.

A GOOD SUGGESTION.

The article we copy below, from the Somerset *Herald and Whig*, embodies an important, and, we think, a most excellent suggestion. The Free Railroad Principle having failed in the Legislature, the people must renew the contest,—and, in renewing it, organize for the nomination and election of such candidates only as will be faithful in the hour of trial. The time has come when no risks should be run, and when the faithful and the faithless should be dealt with according to their deserts.

We give the suggestion of our cotemporary our hearty approval; and, in addition, suggest that the proposed convention should be held at some central point, and with the concert which is manifestly proper in the case. The subject is one which concerns the people at large. Pittsburgh, it is true, has a deep interest in the Free Railroad question, but not more so than the quarter whence comes the suggestion for a convention. Indeed, the suggestion has come from the right quarter, and in good time. We trust the editor of the *Herald and Whig* will take upon himself the labor of the preliminaries necessary to concerted action.

Meantime we say to the friends of the Free Principle everywhere—prepare for action, and for such action as will preclude the possibility of being defrauded again:

RAILROAD CONVENTION.

Now that the Legislature has adjourned, and every hope of obtaining a Free Railroad law, or of securing a restoration of the charter fraudulently wrested from the Connellsville road has been disappointed, immediate action should be taken by the people of Western Pennsylvania to secure justice to their interests, during the next winter.

A convention for this purpose has been mooted in the Pittsburgh papers, and we trust that measures will be at once instituted by the Board of Trade, or some other body of citizens, to carry the idea into effect.

We suggest that this convention be called at as early a day as practicable, so that the result of its deliberations may be laid before the forthcoming political State conventions, and action upon the subject matter be pressed upon both.

We further suggest, that the proposed railroad convention eschew all generalities, all mere declarations in favor of, and demands for a general railroad law, but at once refer the subject to a committee of able, practical gentlemen—numbers of whom will doubtless be in the convention—to frame and report such a bill as will meet the wants of the people of the entire State. The bill matured and adopted by this convention, can then be submitted to the State conventions of both political parties, and the fact squarely ascertained, which, if either of them, will dare refuse a pledge to this measure of right and justice demanded by the people. Moreover, a bill thus framed in advance, can be submitted by the various county nominating conventions to their candidates, and a positive tangible pledge exacted, which will prevent a recurrence of the disgraceful and shameless violation of pledged faith witnessed at the late session, on a professed difference of opinion, between the merits of various bills.

By all means let us have a convention, a good practical convention, that means business, not talk. The people of the State want a free railroad law, we of this county want the Connellsville charter restored—a general law being of no especial benefit to us, with our only available route already covered by the surveys, and location of two companies. We have the power in our hands if we only please to concentrate and make it effective. Neither of the political parties dare refuse us this measure of justice. But if they do, then let politics go to the dogs. What is the pride of party, or the success of a few candidates to a people denied justice, outraged, and impoverished by legislation such as we have been cursed with for years.

GOOD FRIDAY.

In a notice, some time since, of the ritual of Holy Week, (*Char-Woche*,) the writer says, "the German word *Char-Freitag*, (Good Friday), is of doubtful origin." By this we at once perceive he has, in the expectation of gaining information, consulted that sublime work of the "Bohemians," that New American Cyclopedia, wherein it is so stated.

The derivatives of the word *Char* have, by difference in the initial in various languages, often failed to be recognized, and like those of many other important words, by gradual and corruptive invasion of their primitive meaning, through a long series of years, degraded from the high position they once held in form of expression. In origin they are coeval with civilization itself, and at the present day are in common use by all classes of people, from the "land of the cypress and myrtle," teeming with poetic beauty, to the hoary north, rich in ancestral sagas. Employed in the first instance, this remarkable word has retained, in strict purity, its beautiful pristine signification, and as we carefully examine its etymology, such numerous similitudes and striking affinities of language are encountered, as to lead one almost to the belief in a universal tongue.

It is not to be confounded with the word chir, used in England both as noun and verb, derived from the Anglo-Saxon *cyrran* or *cerran*, meaning to turn, which has been mistaken by the learned JOHN HORNE TOOKE, to come from the past participle of *cernan*, in the same language, to churn, altogether a different word. It was sometimes pronounced as if written chair, and it is frequently encountered in earlier English literature spelled in various ways: *chewr, chur, chare, choor*, meaning a turn, a small job. In New England, where difficulties of any kind are often quickly surmounted, it is now written *chore*, and used on frequent occasions, for example:

"Girl hunting is certainly among our most formidable *chores*."

Turning to the majestic Gothic, little trouble is needed to satisfy the doubting that the word under discussion is derived from *Kara*, and is without questionable change readily traced to the following languages: Meso-Gothic and Swedish, *Kaer;* Danish, *Kiaer;* North German, *Car;* ancient and modern high German, *Chara;* Anglo-Saxon, *caru* or *cearu*, whose genitive, dative and accusative end in *e*, with its adjective *cearig*, our present well known chary. Its English meaning is care, grief, concern, solicitude, and metonymically, to think about, to care for; hence, as in modern Swedish, it implies love; since tender solicitude is the dawn of true and permanent love. Strange to say, in the Latin and so-called Latin languages, the word *Char* or *Car*, in combination, in the same manner as in the Scandinavian tongues, forms words of great force and nearly identical definition.

It is the radical of those memorable words, *charitas humani generis*, spoken by the eloquent CICERO, foreshadowing the embodiment of the religion, that long after was to bring glad tidings to millions yet unborn and sweetest consolation to many a weary soul and become not only the standard bearers of a pure faith, but a firm bulwark to protect the advancement of civilization. It was that charity, which St. PAUL took the trouble to fully explain and reiterate, was a more stupendous self-denial than even giving away money, because it required the individual to subdue prejudice, conquer the heart and adopt a lively tolerance for the faults and infirmities of his neighbor. Charity is the transcendant quality that adorns with unfading lustre, the true Christian life, the steadfast possession of which is the constant and faithful safe-guard against blind bigotry and the surest indication of the absence of disguised hypocrisy.

If, in the foregoing, no oversight has been committed and we are correct, few words can, like the humble *Char*, be so certainly traced to such ancient and honored parentage, and seldom do we find one with a more pleasing history and a more interesting position.

A NEW YORK journal exposes, in a becoming way, a practice said to be not uncommon, the very thought of which fills every virtuous mind with horror. It is the practice, the horrid crime, of decoying and kidnapping girls of early age, and forcing them into lives of infamy and woe. Several startling cases of it have occurred lately, and how many of the same sort occur which do not become known to the public, it is frightful to imagine. It is said to be a systematized business, not confined to the great cities, but carried on by fiendish agents in country towns and villages. Sometimes the victims are seized and carried away, but some times they are tempted to leave their homes, by promises of honest employment and high wages, and afterwards betrayed to the horrible doom of an abandoned life. The growth of shocking crimes in this country is sufficient to arouse the people to inquire into the cause, and to apply some remedy that will be effectual. Shall our laws and courts become a mere form? If they do, our institutions of professed liberty will be worthless, and life will be a curse.

IT is said that the salaries—the fees, we presume,—of lawyers in the United States amount to $35,000,000, that the keeping of criminals costs $12,000,000, that the dogs require $10,000,000 for their subsistence and entertainment, and the preachers $6,000,000, and that there is more grumbling about the expense of supporting ministers and religious institutions than about all the others named. We do not vouch for the correctness of the estimates, nor altogether admire the classification, but it answers the purpose of showing how absurd and ridiculous are the apprehensions entertained of the impoverishment and ruin of the country by the outlays for religion. And to the sentiment of a cotemporary, that "no one thing exerts such a mighty influence in keeping this Republic from falling to pieces as the Bible and ministers," we may add that no one supplies its aid with so little ostentation or at so small an expense.

A LITERAL "one-horse" difficulty has occurred between the Pope and the Minister of King William, of Prussia. Diplomatic relations and intercourse between the two august powers have been placed in jeopardy, because the Baron d'Arnim's will was to go to the Vatican in a one-horse carriage, and the Pope's will and rule were against it. The threatening aspect of affairs connected with this momentous question was changed by the Pope's backing down, through his Prime Minister, Cardinal Antonelli. This was deemed, on the whole, preferable to a war with so formidable a foe as Prussia, although, no doubt, his holiness and the Cardinal enjoy the supreme satisfaction of believing, after all, that they occupied the right position in reference to the one-horse question.

PERSONS who speak of our newly acquired Northwestern possessions as a region so cold as to forbid the idea of population, civilization, the arts and commerce, should remember that its southern boundary is south of a large part of Ireland and England, and Russia in Europe, and all of Scotland and Denmark, and Sweden and Norway—populous kingdoms. The prosperous and famous cities of Belfast and Londonderry, Carlisle and Newcastle, Copenhagen, Stockholm and Moscow, are all north of that line, and St. Petersburg is several hundred miles north of it. It will not be many years before free American cities north of it will rival many of those we have mentioned.

THE French Exposition seems measurably to have lost its interest in the minds of our people, and is not likely to attract the crowds of visitors from this country that were anticipated. The dullness of visitors and the reports of the extortion which the Parisians have arranged to practice on visitors have induced many who prepared to go to reconsider the matter, and postpone their European trip to a more favorable season, when they will be likely to suffer only the ordinary amount of fleecing at the hands of our European cousins.

THE number of persons who will return incomes under the revenue law, this spring, will be very much less than it was last year. A portion of the decrease will result from the fixing of the amount exempted at $1,000 instead of $600, but there are many who have paid taxes on handsome incomes in former years, who have no income to report for the year 1866. As a general thing the reported incomes will be less than heretofore, but there will be a few exceptions to this rule.

THE Yankee farmers in Jaffa, after all, are now reported to be doing very well, and to be contented and happy. What motive could have originated the story of their homesickness and destitution, it is difficult to imagine. The only theory that covers it is the famous one embraced in the exclamation of the fat Knight: "How this world is given to lying!"

THE Tennessee State Conservative Convention was held in Nashville Tuesday. The representation of negroes was very small, only six being present. Speeches of a most violent character, denouncing Congress and the radical party, and applauding the Confederacy were delivered. Emerson Etheridge was nominated for Governor.

ALL the New York City Railroad projects in the Legislature have failed—the veto of Gov. Fenton having been employed to lay out as cold as a wedge the Broadway road, and great is the joy and sorrow thereat, according to the point from which the matter is viewed by the ring and people.

THE Chambersburg *Repository* says: "It now seems probable that the Democrats will nominate Judge Sharswood for Supreme Judge, and if so, he will be a strong candidate. Judge Linn, of Bellefonte, seems prominent for the Republican nomination."

A NEW YORK letter says: Queer stories are whispered about concerning that cable telegram that made Bismarck demand of Napoleon an explanation. One house in the street is said to have bagged $500,000 by it.

MATCH FOR DEXTER AND LADY THORNE.—A. F. Fawcett, the owner of the trotting horse Dexter, has accepted the challenge of C. P. Relf, for Lady Thorne, and will trot the former against the latter, between May 20th and July 20th, four races, as follows: Mile heats, three best in five, in harness; two-mile heats in harness; mile heats three best in five, to wagon; two miles and repeat, to wagons, for $1,000 a side; half forfeit. The owner of the California horse, Geo. M. Patchen, Jr., had previously accepted the challenge of the owner of Lady Thorne for the above races, and as the acceptances both date upon the same day, the owner of the celebrated mare can choose which opponent he pleases.

SENATOR FERRY says that in making the purchase of Russia America, we enter upon a new era. To the idea, the unity of the Republic, we add now the other idea, the value of our dependencies. We have attached this new country by the strong cord of a treaty—can we ever really make it a part of ourselves? Must it not always remain a colony, or a dependency rather? Are the two to four thousand "inhabitants" to receive a territorial government like that of Colorado, or shall we send them a pro-consul, a governor-general if anybody likes the term better, with an advisory council of seven or nine or thirteen?

A LETTER dated on board the Colorado on her return passage from China says: "The Orient and Occident have shaken hands, the trial trip has been accomplished, the uniting link has been joined, the traveling public can now steam round the world, and it is not difficult, from the success which has attended this round voyage, to predict the success which is certain to ensue, in a financial point of view, to the great company which has so energetically entered the lists in the grand competitive struggle for the carrying trade of the East."

DEPOSIT one cent in bank, double the amount deposited weekly for one year—as, one cent the first week, two cents the second week, four cents the third week, and so on for the fifty-two weeks—what do you think the amount would be at the end of the year? Figure it up, boys, and see.

The Village of Corry.

A letter from the thriving village of Corry indulges in high expectations concerning the future of that place. The writer says:

"We are a great railroad center: the junction of two as large and extensive railroads as there is in this or any other country; the terminus of the largest little road in this section, *i. e.* the Oil Creek Railroad, and the terminus of another which we expect will be of a cross cut to turn the Lake Shore travel this way. We are situated about thirty miles from Erie, Meadville, Titusville, Warren, Jamestown and Westfield, no towns interfering that have any prospect of making large places; giving us a radius of farming country of fifteen miles, whose farmers do already, and will come here to trade and sell their produce. Next a location for any and all kinds of mechanical industry. Besides our home market we have six different ways for manufacturers to bring in raw material and ship their wares. We have quite a number of factories here and already starting. The Downer Oil Works Co., who constantly employ about one hundred hands, are now putting an addition to their works, of a large barrel factory. They will use it mostly for staves, beech and maple, as we have an abundance of it in this section, and saw them by machinery. We have the Atlantic & Great Western and Oil Creek Railroad machine shops, and will probably have the Cross Cut also. Howard & Son, of Buffalo, are putting up an extensive tannery, which will give a large number of hands employment, and there is large steam mill going up near by. So you see we will turn our hemlock woods into money. A large pail and tub factory has just been started, which have more orders than they can fill. We also have a large number of smaller manufactories yet in their infancy. I could tell you more advantages, but I suppose you will think I have bragged enough for one day."

NEW RAILROAD SOUTH.—New York capitalists are very energetic at present in their railroad enterprises. A new road, to be called the Chattanooga and New Orleans Railroad, has been commenced, and is being pushed forward as fast as possible. The Company building it have also purchased the right of way of the Wills River Railroad, and are now engaged constructing a road to run to Mobile, Ala. A bridge is also to be built over Tensas Bay, so that the trains can run directly into the city of New Orleans, and thus save twenty miles of steamboating. The bridge is to be used by the Mobile and Ohio Railroad and the Great Northern Railroad. It is proposed to have the road extending to New Orleans completed in fourteen months from last March. Many of the small Gulf islands are also to be connected by bridges.

PRIVATE advices give a gloomy picture of the present state of American affairs in England, and the general feeling is that, putting improvement out of the question, no one can see when matters will cease to grow worse. The gigantic railway system of debenture bonds which is one of the controlling interests in the market, is sadly rotten. The distrust seems to be wide-spread in connection with everything in the shape of stock companies, whether of railway, mines, or anything else; and shares by the ship load, some of them very good too, may be had for as many shillings as they once cost pounds. There is a superabundance of money, the rates of interest are extraordinarily low, but discount is unattainable except upon security enough to satisfy the most extortionate usurer.

IN New York business generally may be said to be on the whole improved, and there is a more cheerful feeling among business men. While it is conceded that at the best the amount of the Spring trade will be limited, and much below even the moderate expectations entertained at its commencement, yet it will be better than appeared probable two or three weeks ago. An impression and belief is general that the Fall trade will be good, and that unless some unforeseen complication should intervene to upset the apparently well-founded calculations which are now made, the year will not prove on the whole to have been an unsuccessful one to the general business.

A NEW DISCOVERY.—An Australian paper announces the recent discovery of a new species of liquid gum, or oil, in that country. A tract of land not less than ten miles square had been discovered, which everywhere abounded with bubbling springs of this gum, or oil, while all around were vast quantities of the gum solidified into the consistency of India rubber. This when exposed to a fire, burns with a bright flame, accompanied by a thick smoke, and a smell like old grease. The substance is light, and floats in water.

MR. GLADSTONE.—The London correspondent of the *Round Table* says that "Mr. Gladstone has gained wonderfully by his conduct in opposition, and is certainly becoming the most powerful man in the country. His manner has been a trifle too vehement at times; but it speaks rather of enthusiasm than ill temper, and he is the most undisputed head that the Liberal party has seen for years."

THE wonderful revival still continues in the Siloam Methodist Church, Philadelphia. Over eight hundred persons have professed conversion since the revival commenced. To accommodate the increased membership, a frame building, 73 by 86 feet, has been erected on Otis street, above Girard Avenue. It will seat 1,600 persons.

A GENTLEMAN recently from Malone, New York, near the Canada line, says there are many indications there of an intended Fenian raid across the border. The hotels have stranger boarders, supposed to be officers of the intended expedition.

OF THE
REV. A. A. WILSON'S
Great Remedy for Consumption.

I was reduced so low with Consumption that I was unable to leave my bed, and my physicians informed me that they could do nothing more for me, my case being utterly hopeless, that I had not certainly over a month to live. At this stage I was induced to try the Rev. E. A. Wilson's remedy, and to-day I am well as any man in the world. If there are any who doubt this statement, they can call and see me (as per above address) and I will give them all the particulars of my extraordinary recovery.

CARD TO THE PUBLIC.

OFFICE OF THE PACIFIC AND ATLANTIC TELEGRAPH COMPANY OF THE UNITED STATES,
Pittsburgh, April 17, 1867.

The Pacific and Atlantic Telegraph Company of the United States have contemplated from the period of its organization, the bringing about such a reduction in the rates of long telegraphic messages, as would enable the Commercial Public to enjoy the facilities of the Telegraph, for the transmission of Letters, thereby causing the Telegraph to take to a large extent the place of the mail. This reduction they have developed, and would announce that their wires are now open to the public, to all points where Night Operators are employed, for the transmission of messages after 6 o'clock P. M., at the following rates:

Twenty words or less same as ten words previous to that hour. More than twenty words, and not exceeding sixty, twice the usual rate of ten words. Sixty words, and not exceeding one hundred and twenty words, three times the usual rate for ten words. And for each additional one hundred words, or any part thereof, the usual toll for ten words. A continuation of the same liberal patronage which has heretofore repaid the Company in its efforts to benefit the public is asked.

GEO. H. THURSTON,
President Pacific and Atlantic Telegraph Company of the United States.

PACIFIC RAILROAD CO.,
SEVEN PER CENT.
First Mortgage Bonds.

$2,000,000 in Coupon Bonds of $1,000 Each,

TWENTY YEARS TO RUN,

Principal and Interest Guaranteed by the Atlantic and Pacific Railroad Company,

And secured by property valued at $7,500,000, consisting of their completed road to the Gasconade river, 127 miles from St. Louis, and 350,000 Acres of Rich Agricultural and Mineral Lands on its line.

This road passes through a country rich in agricultural resources and in minerals, and particularly so in iron and lead; the iron ore of the Southwest Missouri being the purest known, ranging from 60 to 90 per cent. of pure iron. Rich and extensive deposits of specular oxide and red and brown hematites abound all along the line of the road and on the Company's lands in greater quantities than the total iron deposit of any State in the Union, and a large business is now being inaugurated in freighting iron ore for the Eastern furnaces, the vast excess in yield of this over other ores paying the differences in cost of transportation.

By a provision of the mortgage, when lands are sold to the amount of $40,000, it is to constitute a fund for the redemption of a like amount of bonds, which are also received by the Company at PAR in payment for land. This land is now being disposed of at rates from $5 to $40 per acre. The climate is remarkably salubrious, and the mean temperature the same as in Virginia, the winter being short and mild. For particulars respecting lands, address Colonel A. ALBERT, Land Agent, at St. Louis, Mo.

The Company has been recently merged with the Atlantic and Pacific Railroad Company, having a land grant of 55,000,000 of acres, thereby adding to the fullest to the security of these bonds.

The road of the latter Company, when completed, will form a direct and continuous railway from St. Louis to San Francisco, much shorter and of vastly easier gradients than any other route.

Of the present issue of bonds, a limited amount is now offered for sale at the low rate of 80 per cent., subject to advance at the option of the Company.

NOTICE—TO THE BONDHOLDERS OF THE ERIE CANAL COMPANY.—By an act approved March 15th, 1867, the Erie Canal Company is authorized to enlarge their canal to such size as they may deem expedient.

The Act authorizes the increase of the capital stock to $1,500,000, and authorizes the Company to receive in payment for subscriptions to stock any bonds, judgments or other indebtedness of the company. The act further provides that "When the present indebtedness of the company or three-fourths of the same shall have been converted into capital stock, the said company is hereby authorized to execute a mortgage of the said canal, its rights, privileges and franchises to their trustees, and issue coupon or other bonds to the amount of one million of dollars, bearing seven per centum interest per annum and not running over forty years, and secured by the mortgage aforesaid, to be expended by the said trustees under the direction of the Board of Directors in the enlargement of the said canal, and with power to sell said bonds at such prices as the Directors may deem expedient."

The company proposes to enlarge the canal to pass boats of from 200 to 250 tons burden, and as there can be little doubt of the canal, when enlarged, paying the interest on its present debt and stock, in addition to the interest on the new bonds, it is hoped the Bondholders will promptly convert their bonds into stock, to enable the company to proceed at once to make arrangements for enlarging. The stock books of the company will be open for the conversion of the present bonds into stock, on and after the FIRST DAY OF MAY, 1867.

By order of the Board.
A. H. CAUGHEY, Secretary.

CITY MATTERS.

GOOD FRIDAY.—To-day is "Good Friday," the anniversary of the crucifixion of our Saviour. The day will be generally observed by the Catholic churches in this vicinity.

SOUTHERN RELIEF FUND.—The amount of funds collected in this city for the benefit of the destitute people of the South up to yesterday morning, was nineteen hundred and twenty-seven dollars.

ALARM OF FIRE.—The alarm of fire at twenty-five minutes to three o'clock yesterday afternoon, from Box No. 42, was caused by the burning of soot in the chimney of the Sixth Ward House, on the corner of Pennsylvania avenue and Federal street. No damage was done.

ATTEMPTED BURGLARY.—An attempt was made to enter Ford's grocery store, on Penn street, in the Ninth ward early Wednesday morning, but was frustrated by the appearance of officer Wilders, of the night police, which caused the burglars to beat a hasty retreat.

RAFT SMASHED—NARROW ESCAPE.—A large lumber raft, while coming down the Allegheny river, on Wednesday night, struck the pier of the Hand Street Bridge, and was broken in pieces. There were fourteen men on the raft, three of whom saved themselves by jumping on a coal barge. Several skiffs started out to the rescue of those who remained on the raft, and succeeded in saving them all. The raft belongs to Messrs. Carter, Miner & Co., of McKean county.

MAUNDY THURSDAY.—Yesterday was "Good Thursday" generally known as Maundy Thursday, from the distributions of food in baskets or maunds. The day was observed in St. Paul's Cathedral, in this city, with all the solemnities attending it at Rome. The Right. Rev. Bishop Domenic officiated in person, assisted by twelve priests, seven deacons, and seven sub-deacons, from St. Michael's Theological Seminary, as required by the ritual. A solemn pontifical high mass was celebrated, during which two hosts were consecrated one being reserved for to-day, when there is no consecration.

GOOD FRIDAY AT ST. PETER'S (P. E.) CHURCH. The Rev. Simon Greenleaf Fuller, A. M., Rector of St. Peter's Protestant Episcopal Church, will officiate to-day (Good Friday) at his church, corner of Grant and Diamond streets. There will be morning prayer at nine o'clock, A. M., anti-communion service at twelve o'clock, noon, and evening prayer at four o'clock, P. M. At each service the Rev. Mr. Fuller will deliver a short address appropriate to the occasion. On Easter Day there will be early morning service at six o'clock, A. M. Bishop Kerfoot has cheerfully concurred in the desire of the Rector of St. Peter's Church, to have an early Easter Day service. It is certainly an edifying custom, and the service which is to be observed on the occasion is the identical one used by Bishop Kerfoot himself during a public ministry of more than a quarter of a century. It embraces lessons from 1 Cor. 15: 20-22, and 1 Cor. 3: 1-11; the 36th and 69th Hymns, and address; the Nicene Creed; the Proper Collects; the Lord's Prayer, and the Apostolic Benediction.

PROF. ROCKWELL'S LECTURE ON COAL TO-NIGHT.—By reference to our advertising columns it will be seen that Prof. Alfred S. Rockwell of Yale College, delivers his final lecture on "Coal and Coal Mining" to-night, at Masonic Hall. This will be the final opportunity of hearing one of the most interesting speakers in the country, on an important scientific theme, in which he will furnish his hearers with a comparison between our immediate coal producing districts and those of foreign countries, showing the advantages enjoyed here, and the great difficulties to be overcome abroad. He will, also, give a description in this connection of methods employed and mechanical appliances required in the great coal mines in Europe; the economic value of coal and its relation to modern progress and civilization. These scientific lectures are given under the sole auspices of the Young Men's Christian Association of this city. We sincerely hope that they will be most liberally sustained. We advise all, therefore, who can attend to-night, not to fail presenting themselves at Masonic Hall. They will hear one of the most scientific civil engineers in this country, on a subject which should deeply interest everybody in this region of our State.

A Noble Act.

Mention was made in the COMMERCIAL a day or two since of the death of James W. Algeo, by apoplexy at a tavern in the Diamond. Captain Hamilton Lacock, of the 140th Regiment, of which the deceased was a member, happening to be on a visit to this city from New York, and being made acquainted with the facts in the case, took charge of the remains and had them interred at his own expense. This was a noble act of genuine soldierly disinterestedness, and deserves something more than passing mention. Captain Lacock was formerly a resident of this city, but for the past few months has been engaged in business in New York city. His generosity in the case alluded to was merely an index of his undeviating goodness of heart.

Accident on the Connellsville Railroad.

Yesterday afternoon about three o'clock, an accident occurred on the Connellsville Railroad, which resulted in the death of John McGann, a resident of Morton street, Manchester. The deceased got on a coal train at Laughlin's Station, and after riding a short distance the conductor approached him and told him it was against the rules of the road to ride upon a freight train. McGann said that he was an employee of the railroad, and requested that permission would be granted him to ride to this city. Upon arriving at Morehead's mill, the deceased attempted to jump on the tender, when he fell upon the track, and two of the cars of the train passed over him, lacerating his limbs in such a horrible manner that he died in a few hours afterwards. Coroner Clawson was sent for, and after empanneling a jury the inquest was adjourned until this morning at ten o'clock. The deceased was thirty-four years of age, and leaves a wife to mourn his loss. Upon the arrival of the train in this city Dr. Addison Arthurs was sent for, who rendered all the assistance in his power, but the poor man died about six o'clock.

ALLEGHENY COUNTY SOLDIERS' MONUMENT ASSOCIATION.

Invitation to Governor Geary and Others—Preparations for the Fair.

A meeting of the members of the Allegheny County Soldiers' Monument Association, was held yesterday afternoon at the City Hall.

It was resolved that an invitation be extended to Governor Geary to be present and conduct the opening exercises of the Fair, and also that General John A. Logan and other prominent military gentlemen be invited to be present and deliver addresses.

The Committee on Tickets were instructed to have the tickets for the Old Folks' Concert ready for distribution at the next meeting.

On motion, it was

Resolved, That a set of base ball implements be purchased and presented to the club receiving the highest number of votes at the Fair.

On motion, the following committee of ladies and gentlemen were appointed to take charge of a booth at the Fair for the exhibition of Relics of the War: Captain W. B. Cook, Dr. E. S. Umostaetter, Col. Thomas M. Bayne, Miss Maggie Montooth, Miss Amanda Bayne and Miss Delia Duncan.

On motion, a committee of ladies, consisting of Mrs. Leonard F. Johns, Mrs. Preston and Mrs. Watt, were appointed to visit the artists in this city and vicinity, and solicit contributions of paintings to be for sale at the Fair.

The Committee appointed to solicit contributions in the different wards and districts of the county, were urged to be present at the next meeting of the Association, to make a report of the sums collected by them, and those that had made no collections to make a report of the fact.

The Association then adjourned to meet at the same place on Thursday afternoon next, the 25th inst., at half-past two o'clock.

Public Amusements.

OPERA HOUSE.—Last evening—the fourth of Madame Methua Scheller's engagement—an entertainment that seemed to combine many elements of popular attraction was offered, but it somehow failed to attract a large audience. "Enoch Arden" was the drawing piece and Madame Scheller played "Annie Lee" in it very nicely indeed, but her part was somewhat overshadowed by the "Enoch" of Mr. Leak which may be considered as an unusually excellent performance. "Katherine and Petruchio" reduced to an absurd farce, from a ridiculous rehash by Shakespeare of an impossible old Spanish or Italian comedy was the afterpiece. We have no regrets for those palmy days of the drama when such coarse brutalities and coarser humors as reveled in the Taming of the Shrew were looked upon as funny. To-night Madame Scheller has her benefit, when the drama of "Mathilde; or Love and Duty" will be given, with the farce of "Brother Bill and I." It is to be hoped the public will appreciate as it deserves her quiet yet forcible manner of acting by sustaining her with a kind and generous enthusiasm.

VARIETIES THEATRE—Neither the programme nor the continued success of this popular house, exhibit any particular change. All we can say is, the one is attractive the other crowded, as usual.

POLICE INTELLIGENCE.

[Before Mayor Morrison, of Allegheny.]

INDIANS ON A SPREE.

Within the last few days a number of Indians, of the Cornplanter tribe, came to this city on lumber rafts from the lumber regions up the Allegheny. On Wednesday night quite a number of them got on a spree. About nine o'clock that evening, the Allegheny night-watch arrested the Chief and a "brave," who were quarreling in the Federal Street Station and annoying persons, and conveyed them to the lock-up, where they remained until yesterday morning. His Honor, Mayor Morrison, in consideration of their being native-born Americans, allowed them to depart.

About nine o'clock yesterday morning, two more "Injuns," of the same tribe, were arrested on Sandusky street, Allegheny, by officers Joseph Campbell and Hess, for exposing their persons while drunk. They are still in the lock-up, having not recovered enough from their frequent potations to be able to appear before His Honor in a respectable manner for a hearing.

BEATING A BOY.

Mrs. Elizabeth Massey appeared yesterday and lodged an information against a man named Smith, for assault and battery. The deponent states that her son, aged ten years, while going along Third street, Allegheny, with a wheelbarrow, was attacked by some boys, who attempted to take the barrow from him. Smith then, it is alleged, interfered and attacked the prosecutrix's son, striking him in the face, knocking him down and beating him in an outrageous manner. A warrant was placed in officer Scott's hands for his arrest.

[Before Alderman Strain.]

HORSE TRANSACTIONS.

J. N. Nowen, of the Third ward, came before the above magistrate yesterday and preferred a charge of false pretenses against Owen Fitzsimmons. The prosecutor states that recently he bought from the defendant, for the sum of twenty dollars, which the seller assured him would pull well in any vehicle. The event, so John says, proves that the animal will not pull, no matter what vehicle is behind him. A hearing will be had in the case.

Michael Daly was arrested on a charge of larceny as bailee, on oath of John Karwin. Karwin alleges that in August, 1865, the defendant obtained from him a horse valued at seventy-five dollars, and has failed and refused to return it, or pay the value of it. The accused was held for a hearing. Karwin resides at No. 35 Sampson street, Allegheny, and Daly on the corner of Sixth and Smithfield streets, this city.

ARRESTED ON A BAIL PIECE.

Thos. Hallowell and Sarah Hewett were arrested on a bail piece issued by the Alderman, and committed to jail.

[Before Alderman McMasters.]

ILLEGAL LIQUOR SELLING.

J. M. Finnerty, who resides at Courtney's Station, appeared yesterday and lodged an information against Patrick Forken, keeper of a tavern in Webster street, in the Sixth ward, for selling liquor on Sunday. A warrant was issued.

[Before Aderman Taylor.]

ASSAULT AND BATTERY.

Officer Bell yesterday arrested a man named Frank Mooney, charged with committing an assault and battery on David McCready. After a hearing he was held to bail for trial.

ARRESTED ON A PROCESS.

Jacob Matter was arrested yesterday on a process for costs in a case of illegal liquor selling, and committed to jail. He subsequently paid the costs and was discharged.

GAVE BAIL.

James McCann, committed to jail on the 11th inst., by Mayor McCarthy, on a charge of forcible entry, gave bail yesterday for his appearance and was released.

FOR SALE.—A flat-boat one hundred and ten feet long, fourteen feet wide and three feet deep. Any person wishing to purchase a boat of the above description will find it to their interest to call at Hogle & Chambers's, No. 74 Fifth street.

BOILER EXPLOSION.

Towboat Alex. Chambers Damaged.

Four Men Injured—One Dangerously.

About one o'clock yesterday afternoon a terrific explosion occurred on the steam tow-boat Alex. Chambers, while lying in the Monongahela river, at the foot of Perry street, Birmingham, and a short distance below Dam No. 1, by which four men were badly injured, one of them probably fatally. The boat, which is commanded by Captain Bowser, has been lying idle at the Allegheny wharf for two months past, and was charted yesterday morning by Henry Metzgar, Esq., to tow a coal barge from the foot of Perry street, Birmingham. The boat stopped at the landing for about twenty minutes for dinner. After dinner, the employees of the boat were engaged in fastening the barge to the boat and getting ready to leave, when the flue of the starboard boiler collapsed with a terrific explosion. Fragments of the boat were thrown in every direction. Four men, the mate, fireman and two deck hands, were at work in the fore part of the boat, and were all enveloped in the flood of scalding steam which rushed forth. Patrick McCall, the fireman, was engaged in firing up, and was standing in front of the boiler when it exploded. He was thrown violently against the railing, where he was found when the steam cleared away. David Donaldson, the mate, and David Stewart and John Rivese, deck hands, were standing in the forecastle of the boat when the explosion occurred. Donaldson was struck in the face by a piece of timber, and was badly scalded on the back of the head and body. He was thrown into the river, but saved himself by catching hold of the coal barge, and crawling into it. Rivese was thrown some twenty yards from the boat into the river. As soon as the steam cleared away, he swam ashore. Stewart was knocked down by a piece of timber and badly scalded. To avoid the steam he crawled to the edge of the boat, and dropped into the river, whence he was taken out by a skiff. James Keno, the engineer, who was attending to the "doctor" at the time of the explosion, was unhurt. The pilot, who was in the pilot house, escaped injury, although the front part of the house was blown away.

After the steam had cleared away, the injured men were picked up and taken charge of by the people. The most seriously injured was Mr. Call, the fireman. He was scalded terribly about the face, legs and arms. He was removed to the office of Burgess Salisbury, where he was attended by Dr. James Kerr. He was taken during the afternoon to Mercy Hospital, in the Eighth Ward, this city. Dr. Kerr gave it as his belief that his injuries would result fatally. Mr. McCann boarded at the house of Mrs. Davis, in Allegheny. Mr. Donaldson, the mate, was not dangerously hurt, although severely scalded. He remained on the boat. He resides at Jack's Run, five miles from this city. Mr. Stewart, deck hand, was seriously scalded on his back, side and arms. His face escaped almost unharmed. He was conveyed to the Hibernia House, in Birmingham, where he received medical attention. He resides at Clinton, Armstrong county, and is unmarried. Mr. Rivese was quite severely scalded on the back and arms. He was taken to the residence of Mr. Wm. Beck, on Perry street, Birmingham, where he was attended by Drs. James Kerr and M. S. Hullings. He is a young, unmarried man, is an Englishman, and has no settled home. None of the injured men, excepting Mr. McCann, are in a dangerous condition.

As stated above, the boat has been lying at the Allegheny wharf for some weeks, and had a fire in her furnaces yesterday morning for the first time during that period. She is not greatly damaged by the explosion, only the breaching of the forward stairway and a portion of the pilot house being blown away. She was towed during the afternoon back to the Allegheny wharf, by the tow-boat Hunter No. 2.

The Alex. Chambers is owned by Stephen S. Jackson, one-fourth; Andrew Jackson, one-eighth; D. F. Jackson, one-fourth; and John L. Hoffman, one-eighth. D. F. Jackson, Master. Her length is 105 feet; breadth, 20 feet; depth, 3 feet. Her total tonnage is 157 42-100, distributed as follows: capacity under tonnage decks 50 45-100 tonnage; capacity between decks above the tonnage decks, 69 33-100; capacity of enclosures on upper deck, 37 64-100.

The cause of the explosion has not been ascertained. A number of rumors are afloat in regard to it, some charging the engineer with negligence in not putting on the requisite amount of steam. An investigation will probably be made by the Steamboat Inspector for this District.

REMEMBER THE SCIENTIFIC LECTURE on "Coal and Coal Mining" by Prof. Alfred S. Rockwell, of Yale College, to-night, at Masonic Hall.

COAL AND COAL MINING.—To-night, Professor Alfred S. Rockwell, of Yale College, will deliver his final lecture on "Coal and Coal Mining," at Masonic Hall. Do not fail to attend.

ONE OF THE MOST ELABORATE and interesting lectures ever delivered before a Pittsburgh audience will be given to-night, at Masonic Hall, by Prof. Alfred S. Rockwell, of Yale College. Subject: "Coal and Coal Mining."

TO-NIGHT WILL BE THE LAST OPPORTUNITY to hear Prof. Alfred S. Rockwell, of Yale College, on "Coal and Coal Mining." He is one of the best educated men on this subject in the United States. See advertisement.

THE MONITOR WASHING MACHINE.—We understand that there has been an immense rush to see the Monitor Washing Machine at Roberts & Sherratt's, 61 Smithfield street. All agree that this is the *ne plus ultra* of machines. Less labor with better results than any other. Wash day is converted into a holiday by this extraordinary machine.

COFFEE! COFFEE! COFFEE!—Please bear in mind our coffees are roasted fresh every day, and we sell them at the low rates of 30, 34 and 37 cents per pound. Java 40 and 45 cents. Green Rio 25, 27 and 30 cents per pound at the Red Front Grocery and Tea House, No. 69 Federal street, Allegheny city. J. Kohen & Bro.

PROFESSOR ALFRED S. ROCKWELL, of Yale College, one of the most learned and distinguished civil engineers in this country, lectures to-night on "Coal and Coal Mining," at Masonic Hall. Don't fail to hear him.

THE PITTSBURGH BOLT COMPANY.—Attention is directed to the regular standing advertisement in this paper of the Pittsburgh Bolt Company, one of the most extensive manufacturing concerns in this part of the country. Patent hot hammered bolts, ditto pins, washers, carriage, plough, car and bridge bolts, fish, plates bolts for railroads, Wood's screw rivits, etc., of the finest iron and most perfect make, are manufactured by this company. Their office is located at No. 64 Water street.

CARD.—Dr. Robert Hunter desires to notify his patients and those requiring his professional services, that he will definitely close his office in Pittsburgh on the evening of Saturday, April 27th.

Dr. Hunter's practice is confined to affections of the chest, viz.: Sore throat, ozena, bronchitis, asthma, consumption, and disease of the heart.

Parties wishing to avail themselves of Dr. Hunter's experience in these affections, should embrace the earliest opportunity before his return to New York, for a personal interview and examination, after which they can pursue the treatment without difficulty.

Hours—9 A. M. to 5 P. M., daily.
Office—At the Merchants' Hotel.
PITTSBURGH, April 11, 1867.

A NEW, NOVEL AND IMPORTANT FEATURE.—The enterprising Messrs. Dunseath & Co., No. 56 Fifth street, wholesale and retail dealers in clocks, watches, jewelry, plate, etc., have introduced an important feature in their business. In thousands of households the family clocks are permitted to remain unrepaired when they get out of order, because they are either too heavy or bulky to carry to a clockmakers. Messrs. Dunseath & Co. have provided for this line of their business a most beautiful and costly carriage, drawn by an elegant animal, and will visit any dwelling, store, etc., in either of the two cities, or any of the surrounding boroughs, upon notice being left with them, and bring away clocks, plate, jewelry, etc., which may require repairing, and deliver them again. This is an important feature which we hope all of our readers will bear in mind. Cut this paragraph out, and keep it in your pocket-book for reference when the emergency occurs.

Mrs. James McKenna, 21 Penn street, is improving in health very fast under the Indian Herb Doctor's treatment.

I have been troubled for fifteen years with liver complaint and dyspepsia. I tried the most skilled doctors; none of them could do me any good. I applied to the Indian Herb Doctor who has cured me. J. MCVERNON,
Boss Carpenter, Webster street.

My child was covered all over its head and face with a scab at least a quarter of an inch thick. It was called scrofula. The Herb Doctor has completely cured it in two weeks.
MRS. MEISTERELD, Birmingham.

I went to Philadelphia and was treated without any benefit by the doctors there. I returned to Pittsburgh and consulted the Indian Herb Doctor's treatment, and he has cured me. My disease was bordering on consumption.
MRS. NEIL, Logan street.

My daughter has been cured of the itch by the Indian Herb Doctor.
MRS. HARE, West Manchester.

I have been troubled with costiveness for twenty years. The Herb Doctor has cured me.
MRS. KOHRSSON, Manchester.

From a Postmaster: I would recommend all who are troubled with rheumatism to go to the Indian Herb Doctor, who has cured me.
ROBERT BINGHAM,
Monongahela Valley, P. O.

The Doctor's office is 194 Liberty street.

Spring Suits, Spring Suits.

Our merchants, clerks, and business men generally, ought not to fail paying a personal visit to the extensive merchant tailoring establishment of A. Aronson, Star of the West Clothing Hall, No. 169, corner Liberty and St. Clair streets. Large and fine stock of Boys' Clothing.

IRON CITY BASE BALL EMPORIUM.—Hogle & Chambers, No. 74 Fifth street, have just received the finest and cheapest lot of bats in the city, which they will sell at from forty cents to three dollars each. They are also prepared to furnish clubs with complete outfits at the lowest price. Orders from the country promptly filled. Score books from ten cents to three dollars. Peck's new packet score books sent to any address on receipt of ten cents and stamp. Only place in the city where you can procure the celebrated Prize Ball Club.

THE WHOLESALE DRY GOODS TRADE.—Messrs. J. W. Barker & Company, No. 59 Market street, have just received from the senior member of the firm, who resides in the city of New York, and superintends the purchase of all the goods sold at this first-class leading house, an additional and heavy invoice of new and very choice Prints, Ginghams, Mourning Goods, &c., which embrace the most novel and elegant designs that have been introduced this Spring. No other wholesale dry goods house in the city can compete with Messrs. J. W. Barker & Company in the purchase of stock. They enjoy unusual advantages over all others, and, therefore, are always first in the field every season. Country merchants will find their stock this Spring to be one of the largest, embracing more styles and patterns in all kinds of dry goods for Spring and Summer wear than can be found at any other place west of the mountains. Their retail department is constantly supplied with a rare stock of dress goods, etc., which are retailing at low prices. An early call is invited.

NEW MERCANTILE COMMISSION HOUSE.—We ask the attention of our readers to the newly established house of Messrs. VanGorder & Shepard, Commission Merchants, located at No. 300 Liberty street, adjacent to the great Union Railway Depot. The gentlemen who compose this firm are well known in our business community for their integrity, energy and business tact. Both of them are men of ripe experience in the commercial affairs of this market, and are a decided acquisition to our business community. Their trade relations are at once extensive and of the right character, and they bring to the branch of business in which they are now fairly embarked, all the qualifications which are requisite and essential to success. They have in an incredibly short space of time built up a trade which already rivals that of similar houses of many years standing, and their patronage is daily on the increase. Personal attention is given to the purchase and sale of all kinds of Foreign and Domestic Fruits, Flour, Cheese, Lard, Eggs, Potatoes, Poultry, Game and produce generally. We cordially endorse Messrs. VanGorder & Shepard, and recommend them to the attention of all our readers.

THE NEW BANKRUPT LAW, with notes to every section of the act, and a collection of all the principal American and English decisions upon the law of bankruptcy. Adapted to the use of the lawyer and merchant. By Edwin James, of the New York bar, and one of the framers of the English bankruptcy amendment act. In one volume, 8vo., cloth, beveled edges, and law, sheep.

This important work was prepared by Mr. James during the time the legislation in Congress on the subject was proceeding, the main provisions of the law having been carefully supervised by him. The novelty of the practice has left American lawyers without experience in bankruptcy cases, and Mr. James, has therefore endeavored to supply the practitioner with a treatise on the subject upon which he may confidently rely. His experience as one of the Commissioners for the amendment of the English Bankruptcy Law, and as an extensive London practitioner in bankruptcy cases, has peculiarly fitted him for the task.

The above important work has been received by John W. Pittock, opposite the Postoffice. Those who have not already subscribed for the work, will do well to call on Mr. Pittock at once, and have their names registered, as the first edition being limited, will be sold only to subscribers.

A TIMELY WARNING.—It is especially important at this time, when the markets of the United States are flooded with the direst poisons, under the name of imported liquors, and when domestic compounds purporting to be medicinal, but not a whit less pernicious, are heralded to the world as "sovereign remedies," that the public should fully understand the facts. Be it known, then, that while all the diffusive stimulants called *liquors* are impure, and all the *Tonics* containing alcohol are manufactured with a fiery article containing *amyl* or *fusel oil*, a *mortal poison*, HOSTETTER'S CELEBRATED STOMACH BITTERS contain none of these things, but are a combination of pure essence of Rye, with the pure juices of the most valuable stomachic, anti-billious, and aparient herbs and plants, and that as a safe and rapid remedy for Dyspepsia, and all its kindred complaints, this preparation stands before the world without a rival or competitor. Its sales to-day are equal to the combined sales of all the other tonics advertised in the United States, and the certificates which authenticate its usefulness are signed by individuals of the highest standing in every professional calling and walk of life. Beware of imitations and impostors.

FINANCE AND TRADE.

THURSDAY EVENING, April 18th, 1867.

The weather was most propitious to business to-day, and our wholesale houses were busy in waiting on customers, who are purchasing on a pretty liberal scale. There is evidently a brighter and more encouraging condition of affairs both in trade and financial circles. The banks are not discounting much new paper, but they are extending all the accommodations possible to their customers, and the opinion is strengthening that our money market is working into an easy condition.

—Seven-thirties are rapidly coming in and being exchanged for gold six per cent. bonds. So long as the gold premium is up to 21, the 6 per cent. gold-bearing bonds pay as much interest as the 7-30s, All the difference between 121 and 135, the present ruling rate, is in favor of the prompt exchange. In order to supply the active demand for bonds caused by the large purchases of 7-30s, the Government is again selling the new bonds of 1865. These bonds can be had on as good terms as the Government itself affords by applying at the banking house of Messrs. McVay & Co., of this city. The New York quotations of the Public Funds as received by special telegrams to this house to-day show a further advance in the December Compounds. The prices are as follows:

MILWAUKEE FLOUR AND WHEAT MARKET.

Special Correspondence of Pittsburgh Commercial.

MILWAUKEE, WIS., April 15, 1867.

A review of the market during the past week, will exhibit in the earlier part of it, firmness and an upward tendency in all grains and flour, so continuing until the middle of the week, when seized by all of those sudden and unexplainable reverses, which particularly belong to speculative operations—changes which are not readily accounted for by any apparent reasons—the market went down heavily, and notwithstanding several efforts to revive, continued to drag through the latter days of the week, though at the eleventh hour sufficient strength was found to carry it over Sunday. This decline was more observable in wheat, than in flour and other grains, though these articles declined in sympathy with the decline in wheat. Flour reported nominally lower, yet there was no material change in prices. Our stock of flour is more than ordinarily light, and with but a limited amount offered, holders being disposed to hold in anticipation of future advances. With the advance of the Eastern markets, to correspond somewhat with the prices that have been obtained here, orders are growing more liberal and the shipments increasing which can better be illustrated in the following figures: Shipments of flour during the past week 13,720 bbls; shipments of wheat, same time 41,915 bush, against 17,295 bush received—to compare with 32,068 bush received same date last year. In flour prices have ranged from $12 25@13 90 for country and city double extra; $11 75@12 50 for county and city extras, and in demand. Wheat has gone as high as $2 75 for No. 1; $2 56 for No. 2, $2 38 for No. 3—closing the week, nominal for No. 1 $2 44½; No. 2 $2 31; No. 3 —. Oats—No. 1, 60c; No. 2, 58c. Corn dull and nominal, about $1 10 for No. 1 old. Rye $1 42½@1 43. Provisions dull and unchanged from last week.

Navigation is about open, offering opportunities to increase trade, which is being readily embraced, and our harbor presents a scene of increasing activity.

Very respectfully,
MOWER, CHURCH & BELL.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, THURSDAY EVENING, April 18, 1867.

Our general markets to-day were generally active, and consequently improved over the transactions of the daily business of the present week. Prices have not undergone any material change since our last, with the exception of flour, which article is held slightly higher. The receipts of leading articles of produce, owing principally to the damage done to our western railroads since our last two issues, have been extremely light. Our import tables of to-day show receipts of only 202 bbls of flour; 180 bbls apples; 699 sacks of corn; 157 sacks wheat; 864 sacks oats, and 43 packages butter.

We quote as follows, which are the wholsale prices, unless otherwise stated:

ASHES—We note sales of 5 tons pearls at 11c, and 20 tons soda ash at 5¾c ℔ lb.

APPLES—Prices range from $4 00@5 50 ℔ bbl for prime to choice.

BUTTER—The market is dull and prices lower. We note sales of 1,600 lbs table butter at 30@32c; 6 boxes roll at 30c; 3 bbls at 28c, and 3 bbls old at 15c ℔ lb.

EGGS—Prices remain as last quoted. The market is very quiet. We quote at 23c ℔ doz.

CHEESE—We note sales of western reserve, new, at 15@16c.

FLOUR—The market is active and higher, dealers asking an advance to keep pace with western rates. Stocks are very light. We note sales of 200 bbls McGregor's brand at $14 25; 100 Crescent brand at $14 00; 100 Despiaine's at $12 25; 100 do at $12 50, and 100 bbls Jenkins's Eureka at $15 00 ℔ bbl.

GRAIN—We quote No. 2 Wheat nominally at $2 80 @2 90 ℔ bushel. Corn is active; sales of 2 cars shelled, mixed, on the track, at 90c; 1 car yellow, on the track at 95c; 1 car yellow, in elevator at $1 ℔ bushel; 302 sacks mixed on the wharf at 90c and 1,000 bushels shelled and car, on the wharf, at 95c ℔ bushel, reported. Oats—Sales are noticed of 400 bushels in store at 68c, and 1,000 bushels on the wharf at 63c ℔ bushel. Sales of prime Barley were made at $1 15@1 20 ℔ bushel; one car common sold at $1 05 ℔ bushel.

HAY—Sales reported of 22 bales on the wharf at $24 and 3 cars on the track at $24 ℔ ton.

POTATOES—One car peach blows sold at 90c ℔ bush, and 20 bbls inferior at $2 00 ℔ bbl. These were the only sales coming under our notice.

LEAD—We note sales of 250 pigs lead at 10½c ℔ lb.

PEACHES—Sales of 10 bbls dried peaches, halves, at 20c ℔ lb.

SEEDS—We note sales of 20 bush flax seed at $3 00, and 6 bbls clover seed at $13 00 ℔ per bush.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL, FRIDAY, April 19, 1867.

Business yesterday was not very active. The sales made were on a small scale. The fact was buyers and sellers were apart in their views. The receipts by river and rail since our last were 5,151 barrels. Prices have undergone no particular change. Among the sales we note as follows: 100 bbls of crude at 6¾c. The nominal rates were 6½@6¾c for bulk. Offers were made for May delivery at 7¼c. Buyers however were shy and disposed to wait and see what may turn up. The market closed with the advantage on the side of holders, who know how to make a proper use of the same.

REFINED OIL—The market has undergone no particular change; buyers were plenty, provided the figures met their views. The only sales that came under our notice being, 1,000 barrels standard white, May delivery, Philadelphia, 27½c; sales 2,000 barrels do, April delivery; the terms were withheld. Sales 1,000 barrels for September delivery, Philadelphia, 29c, with $1 ℔ bbl advanced by the purchaser.

NEW YORK.

Crude has met with a fair demand since our last, says the *Commercial List* of April 17th, and the market has ruled steady. ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL, THURSDAY, April 18, 1867.

The Cattle market since our last was very dull; the sales made were on a very limited scale. The offerings being light, sales were far below those of last week. The number sold amounted in the aggregate to 468 head, although a large proportion were on terms that were not made public. The sales for the past two weeks were as follows:

April 11 .... 675 .... $5 75@8 75
April 18 .... 328 .... 7 50@8 75

Being a falling off in the sales of 328 head. The prices will show for themselves.

HOGS—The market was dull; the sales made being on a small scale. The season being over we have only small sales to record. The sales for the past two weeks were as follows:

April 11 .... 425 .... $8 00@9 00
April 18 .... 160 .... 7 50@8 50

The above figures tell their own tale.

SHEEP—The market since our last was firm with a good demand. The sales for the past two weeks were:

April 11 .... 250 .... $5 00@8 50
April 18 .... 150 .... 7 00@8 50

Being an advance in prices and a falling off in sales.

New York Finance and Trade

Gold Closed at 137½.

NEW YORK, April 18—P. M.

Money very easy at unchanged rates. All stock boards and Gold Exchange resolved to adjourn over Good Friday.

FAILURES.

The failure of another cotton firm is announced, that of yesterday was John H. Brower & Co. A failure in the provision trade is announced.

STERLING

Higher under the decline in cotton. Bankers are undesirous of drawing until more definite European news is received.

GOLD

Opened quiet, but became excited under reports of another decline in cotton and bonds in England, and the rumor that negotiations were broken off between Prussia and France. The price run up to 137¾, but receded 137½.

GOVERNMENT BONDS

Firm and moderately active. Registered 1881, 109⅛@109¼; coupons 1881, 109⅛@109½; 5-20's registered 1862, 104@104¼; coupons 1864, 108⅛@108¼; coupons 1865, 108⅛@108⅜; 5-20 coupons, January and July, 107⅛@107¼; 10-40's registered, 98⅞@99⅛; coupons, 98⅜@98¾; August 7-30's, 105⅞@105⅞.

THE RAILWAY MARKET

Was firm at the last Exchange, with a fair business. New York Central and Erie were higher, the short interest being considerable. After call the whole market was lower for a time, but towards 1 o'clock Central was up to 98¼, which stiffened prices a little. The market, however, was heavy on Northwestern, Rock Island, Ohio Certificates, and prices were lower at the one o'clock board. There was a slight rally at the second regular board, and likewise at the last open board. The market closed steady.

CLOSING PRICES.

Wm. Heath & Co. report the following prices at 5:30 P. M.: American Gold, 137⅜ bid; Ohio certificates, 22½@22¾; Canton Coal, 43@43¼; Cumberland Coal, 28½@30; Quicksilver, 27⅛@28¼; Mariposa, 6⅜@7; preferred, 20@20¼; Western Union Telegraph Company, 35⅛@35¼; New York Central, 99⅛@99¼; Erie, 55⅜; Hudson, 99; Reading, 99¼@99⅜; Michigan Southern, 66⅞@66¾; Pittsburgh, 68⅛@68¼; Rock Island, 85⅛@85¼; Northwestern, 31¾@31⅞; preferred, 58⅛@58¼; Fort Wayne, 91⅛@91¼.

STEAMSHIP SHARES.

Pacific advanced to 127⅛@127⅜, but closed at 125¼; Atlantic, 83½.

BORDER STATE BONDS.

Missouri 6s, 93¾; Tennessee, 63; North Carolina, ex coupons, 47½.

MISCELLANEOUS.

The miscellaneous list was steady. Coal shares dull.

MINING MARKET

Generally firm and more active. Gregory steady at $8 85@8 95; Corydon active and advanced to $6; Quartz Hill ran up to $2 39, but declined to $2; other changes not important.

NEW YORK, April 18.—Money easy and steady at 5@7 per cent. on call. the inside rate on Governments. Sterling firmer at 109⅜, gold, for first-class bills. Gold firmer, opening at 135⅞, advancing to 137⅞, and closing at 137⅝. Government stocks without decided change. Freights to Liverpool without material change, with engagements for 15,000 bush. Cut meats dull. Bacon quiet at 10@10½c for Cumberland middles. Lard 12¾@13c for fair to prime steam.

Cincinnati Markets.

CINCINNATI, April 18, P. M.—Flour—unchanged, with a moderate trade demand at $13 to $16 for common extra to choice family, and $16@18 for fancy. There was a fair demand for the lower grades at $10@10 75 for regrinding, and $11@12 for superfine; middlings are in demand at $2 50 per hundred lbs, and Rye flour at $9 75@10 00. Wheat—scarce and in demand, but none of consequence offered; 200 bush. prime red sold at $2 25. Corn—firm at 96c sacked, and 82@84c in bulk. Oats—in moderate demand at 66c in bulk. Rye—firmer; sales at $1 65@1 70, closing at the latter rate. Barley—unchanged. Whisky—in moderate demand at 26c in bond. Cotton—dull and prices nominal at 25c for middling. Provisions—dull; demand light; mess pork is held at $22 25@22 50. Bulk meats 8, 10 and 11c. Bacon 9@12c, but in order to force sales ½c per lb less as regards bulk meats and Bacon had to be accepted. Mess pork could not have been sold at better than $22, but on the other hand purchases to any extent could not have been made below our quotations. A small lot of bulk shoulders at 8c packed, and of sides at 9c loose. Lard unchanged and in fair demand; sales of 40 tierces at 12½c. Cheese steady at 16½@17c. Butter steady at 28@30c for prime to choice fresh. Clover Seed steady at $12; Timothy $3 40@3 50; Flax $2 60. Linseed Oil, $1 45, but demand light under expected surplus from the Eastern markets. Coffee and Sugar steady and unchanged. The feeling in the general market at the close was somewhat unsettled, under the rumors from Europe and the advance in gold. Holders of produce exhibited more firmness. Money market easy at 9@12 per cent. Gold excited and at the close of bank hours 137 was paid by dealers, and they ask 138. Exchadge firm at par buying and 1-10 premium selling.

New York Dry Goods Market.

NEW YORK, April 18.—The market for all desirable makes of cotton and woolen are in steady fair demand, but poor and indifferent styles are drooping and have to be sold at a slight concession. The most important change to-day is the reduction in unseasonable styles of Manchester delaines, which sold as low as 20c, but this does not affect the prices of other styles. Other makes of ordinary delaines job at 23c, and Sprague's at 22c.

Philadelphia Market.

PHILADELPHIA, April 18.—Breadstuffs unchanged. Flour—Sales 2,000 bbls Northwestern extra on private terms; extra State $15. Wheat quiet and steady; Pennsylvania red $3 25; white $3 55. Corn in fair demand at $1 25 for yellow. Oats dull and declining; sales 4,000 bush Pennsylvania at 75c. Whisky unchanged.

Memphis Market.

MEMPHIS, April 18.—Cotton very dull; nothing doing. Corn weak at $1 18@1 22. Hay lower at $32@34. Other markets unchanged. Business dull and depressed.

THE RIVER AND MATTERS ALONG THE WHARF—Business yesterday was moderately active. The weather was pleasant. The fine stage of water has enabled a number of coal boats to take their departure. The stages of water last evening were: Monongahela, 12½ feet; Allegheny, 13½ feet. Our dispatches from Oil City report eight feet and at a stand. The Robert Moore take her departure this day for Portsmouth and intermediate points. Persons going that way will be well cared for. The Parkersburg packet for to-day is the steamer Leni Leoti, Captain Hamilton. The Bayard left yesterday on time with a good trip. The Columbia, Glasgow and Importer are announced for St. Louis and the Upper Mississippi. The Kate Robinson, from New Orleans, had a good trip. The far-famed packet America, Captain Golding, is announced for Memphis and New Orleans. She will have dispatch. The sidewheel steamer Ezra Porter, Captain Porter, is announced for Saturday. Persons going that way will be well cared for.

THE Bayard, Capt. Moore, left yesterday on time for Parkersburg with a fair trip.

THE Ingomar took her departure on time for Matamoras with a good trip.

THE steamer Richmond arrived at New Orleans on Tuesday.

THERE were seven feet water on the Cumberland Shoals on Tuesday and rising.

TWENTY-FIVE feet water in the channel between Cincinnati and Louisville.

THE steam tow boat Alex Chambers collapsed a flue yesterday. The particulars will be found in our local column.

THE steamer Ida Rees, Capt. Brown, was advertised to leave Cincinnati for this port on Wednesday.

ON Wednesday there were seventy-six and a half feet space between the Cincinnati bridge and the water.

THE Louisville *Courier* says: The new tow boat Boaz was at the wharf, looking more like a first-class passenger packet than a towboat.

THE Parkersburg packet Leni Leoti, Capt. Hamilton, leaves this day for that and intermediate points. To persons going that way a fine opportunity is offered.

THE fine passenger steamer R. Moore leaves this day for Portsmouth and intermediate points. To persons going that way a fine opportunity is presented.

THE fine packet Columbia, Captain Reed, is announced for the Upper Mississippi. This boat is well found in every respect, and is in charge of careful and attentive officers.

THE fine packet Importer, Capt. John Noss, is announced for St. Louis, Galena, Dubuque and St. Paul. This boat has the best of accommodations and is in fine condition.

THE following tow-boats came in since our last: Tom Rees and Hercules. The departures were the Panther with five boats and with 110,000 bushels coal for New Orleans.

THE fine steamer Ezra Porter, Captain J. H. Porter, is loading for St. Louis and St. Paul. Her cargo is nearly complete. Passengers for those points could not select a better boat, or travel with more attentive officers.

HEAVIEST LOAD EVER SENT TO NEW ORLEANS IN ONE LOAD.—The steamer Yankee, of the Mississippi Valley Transportation Company, left St. Louis on the 6th, with a fleet of six barges in tow, containing 5,000 tons of freight.

THE first class passenger steamer Glasgow, Capt. G. W. Johnson, is announced for St. Louis, Galena, Dubuque and St. Paul, on Saturday, positively. This boat has great speed, superior accommodations, and makes her trips with great regularity. Persons who have traveled on the Glasgow speak in flattering terms of her appointments.

BY telegraph dispatch from Captain Sharp McDonald, owner of the steam towboat A. J. Baker, dated Louisville, April 18th, stating that they had got the coal barges off the rocks safely, and that she had left for Cairo with 11 barges, containing 120,000 bushels coal to supply the yard at that point.

He also telegraphs that coal is brisk at New Orleans at sixty cents per barrel.

A ST. LOUIS paper says: "The mountain trade is growing beautifully less every day, and is about fizzled out for this season. There is considerable government freight to ship, but outside of that a general dullness prevails. The Nymph was unavoidably detained last evening, but will positively leave to-day, and will be followed by the Abeona tomorrow. The Nile has a full cargo on board, and will start for Benton this evening."

THE far famed packet America, Capt. Thomas H. Golding, is fast filling up for Memphis and New Orleans. This boat is one of the best of her class afloat and in the charge of Captain Golding, has won a reputation equal to any boat that comes to this port. The Captain is one of nature's noblemen—don't know how to perform a wrong action, and is justly admired by all who have the pleasure of his acquaintance. It gives us pleasure to say a good word for Captain Golding.

COAL DEPARTURES.—The V. F. Wilson left on Wednesday evening with a tow of nine barges, containing 100,000 bushels coal for Natchez, for Captain Packer. The tow was intended for the Dick Fulton No. 3. that was burnt at the wharf on Thursday night, 11th inst. The Tom Rees left for Louisville with seven barges with 80,000 bushels coal. The following tugs are preparing and will leave as soon as they can get coal: Arab, O. H. Ormsby, Grand Lake, Coal City, Lioness, Diamond, Hercules, N. J. Bigley, Little Alps, Wild Cat and Star.

GOOD BUSINESS.—It is said that the receipts of the Great Republic from Pittsburgh to New Orleans were $33,066. Probably she charged a dollar a drink at her bar in other places as well as at Louisville.—*Louisville Journal.*

As the barkeeper was a Kentuckian, they can settle the matter of charging among themselves. The best way to do is to pay as you go along; this will prevent charging.

THE following are the rates of freight from Louisville to New Orleans:
